Working Sober:

Working Sober William J. Sonnenstuhl, 2018-05-31 Americans assume that workers do not drink on the job and that if they do it is because they suffer from alcoholism rather than because they are conforming to occupational expectations William J Sonnenstuhl disagrees He contends that some occupational cultures encourage heavy drinking Moreover his research suggests that the sense of community which motivates drinking can also sometimes inspire workers to break the pattern and work sober Revised and updated this report addresses questions often raised by employers and union leaders developing job based programs to help alcoholic and other troubled employees This new edition discusses the efforts of EAP workers the historical development and key components of EAPs and the importance of balance in program strategies and in corporate and union responsibilities

The Bridgemen's Magazine, 1908 Tramps, Unfit Mothers, and Neglected Children Sherri Broder, 2010-11-24 In late Victorian America few issues held the public's attention more closely than the allegedly unnatural family life of the urban poor In Tramps Unfit Mothers and Neglected Children Sherri Broder brings new insight to the powerful depictions of the urban poor that circulated in newspapers and novels public debate and private correspondence including the irresponsible tramp the fallen single mother and the neglected child Broder considers how these representations contributed to debates over the nature of family life and focuses on the ways different historical actors social reformers labor activists and ordinary laboring people made use of the available cultural narratives about family gender and sexuality to comprehend changes in turn of the century America In the decades after the Civil War Philadelphia was an important center of charity child protection and labor reform Drawing on the rich records of the Pennsylvania Society to Protect Children from Cruelty Broder assesses the intentions and consequences of reform efforts devoted to women and children at the turn of the century Her research provides an eloquent study of how the terms used by social workers and their clients to discuss the condition of poverty continue to have a profound influence on social policies and develops a complex historical perspective on how social policy and representations of poor families have been and remain mutually influential
