Working With Manuscript:

Working with Manuscripts Liv Ingeborg Lied, Brent Nongbri, 2025-04-15 A first of its kind handbook outlining best practices and common pitfalls for students and textual scholars interested in beginning to work with manuscripts. While manuscripts are rare in most of the world today, they were once ubiquitous. Before the printing press, literature was preserved and transmitted through handwritten copies containing variant readings, mistakes, corrections, and other unique features. Those who study premodern texts, however, often use as their primary sources not these diverse artifacts but critical editions that present a single, convenient hybrid text. Brent Nongbri and Liv Ingeborg Lied argue that knowledge of manuscripts is important for all interpreters of ancient texts, even if learning how to study them can be confusing and intimidating. In this book, they draw on their decades of experience with Jewish and Christian manuscripts to demystify manuscript work. Combining their interests in manuscripts as material artifacts with the ethical issues surrounding the study of manuscripts, Lied and Nongbri guide students through the main phases of research, from considerations of provenance and access to the practicalities of on-site research, analysis, and publication. The book includes aids for locating manuscripts, helpful case studies, tips for organizing data, a glossary, suggestions for further reading, and more. Written in an engaging style with students in mind, this handbook provides an invaluable resource for anyone who wants to study a manuscript for the first time.

Literary Manuscript Culture in Romantic Britain Michelle Levy, 2020-02-14 A study of the production and circulation of literary manuscripts in the Romantic era in Britain. Offers a detailed examination of the practices of literary manuscript culture, particularly the production, circulation, and preservation of manuscripts, based on extensive archival research. Demonstrates how literary manuscript culture co-evolved with print culture in a nuanced study of the interactions between the two media. Examines the changing cultural attitudes towards literary manuscripts and how these changes affected practices and values. Surveys the impact of digital media on our access to and understanding of historical manuscripts. This book examines how manuscript practices interacted with an expanding print marketplace to nurture and transform the period's literary culture. It unearths the alternative histories manuscripts tell us about British Romantic literary culture, describing the practices by which handwritten documents were written, shared, altered, and preserved, and explores the functions they served as instruments of expression and sociability. By demonstrating how literary manuscript culture co-evolved with print culture, this study illuminates the complex entanglements between the media of script and print.

Genealogical Manuscripts in Cross-Cultural Perspective Markus Friedrich, Jörg B. Quenzer, 2024-12-16 Situating the history of genealogy in the ambit of manuscript studies, this volume explores how handwriting practices influenced the development of genealogies. It shows how lineages used handwritten documents in constructing and presenting their identity, both to the outside world and to themselves. Genealogical handwriting is practiced in many manuscript cultures; this volume is the first to juxtapose studies from a wide variety of such cultures, ranging from East Asia to West and Central Asia to Europe. As the present contributions

discuss in depth tracing one's lineage usually required taking note of personal histories, biographies and relationships the chapters explore the many different reasons that compelled both individuals and institutions to do just this and highlight the various contexts in which genealogy writing occurred Taking a material oriented approach to handwriting practices in the study of genealogies can reveal the challenges implicated in producing such written artefacts highlighting the enormous effort required in cultivating lineage related knowledge Seen from the view of manuscript studies genealogies emerge as invaluable yet also highly fragile forms of cultural capital

The Complete Works of Oscar Wilde Oscar Wilde, 2000 This volume presents for the first time the complete textual history of one of the most famous love letters ever written Addressed to Wilde's lover Lord Alfred Douglas and composed in Reading Gaol it was later given the title *De Profundis* by Wilde's friend and literary executor Robert Ross It was Ross's severely abridged and sanitized version published in 1905 and again 1908 which inaugurated the tradition of seeing *De Profundis* as the *apologia pro sua vita* of a broken man This edition takes account of this complex heritage by arguing that Wilde's prison document may be seen not just as the basis of a letter a typed copy of which may have been sent to Douglas but also as an unfinished literary work which he intended for public consumption at some future date Such a case is made by placing in the public domain often for the first time a number of different works derived from different texts each of which bears witness to Wilde's multiple intentions for his prison document These texts comprise the manuscript held in the British Library the version of Wilde's letter published by his son Vyvyan Holland from a typescript bequeathed to him by Robert Ross hitherto unpublished witnesses to that typescript and Ross's editions collated with each other The commentary to this edition again for the first time sets Wilde's story of his own life in *De Profundis* against the testimony of other players in his drama including most importantly that of Douglas In so doing it exposes the partial nature of Wilde's narrative as well as the personal obsessions which animated it The commentary also demonstrates a hitherto unnoticed element of Wilde's work the extent and nature of its richly layered intertextuality and its similarity in its compositional practices to many of his earlier works
