Economies in Transition Ian Jeffries, 2002-03-11. The book is divided into four parts: theoretical issues in the transition from command to market economies; the events in the fifteen independent countries of the former Soviet Union; Eastern Europe; non-European states. In all, the author chronicles events from 1993 to 1995 in thirty-five countries. Economic developments are set in their political context and presented chronologically as far as possible.
