World Geography People In Time And Place:

With the World's People John Clark Ridpath,1916 **Time-Space Compression** Barney Warf,2008-03-03 This volume explores the multiple ways in which people experience time space compression in varying historical and geographical circumstances Including economic cultural social political and psychological dimensions of time space compression

Striving for Excellence ,1993 Each vol a compilation of ERIC digests **School Life** ,1959 **Time: A Bibliographic Guide** Samuel L. Macey,2018-10-10 Originally published in 1991 A multidisciplinary guide in the form of a bibliography of selected time related books and articles divided into 25 existing academic disciplines and about 100 subdisciplines which have a wide application to time studies **Mapping Time and Space** Evelyn Edson,1997 Until recently medieval maps were often looked upon as quaint amusing and quite simply wrong By comparison the best examples of modern cartography appear to offer a much more accurate record of the world However as Professor Edson makes clear in this stimulating book when seeking the meaning and purpose of maps in the Middle Ages one cannot assume that they were used for the same purposes or had the same meaning as they do today In fact the differences in structure and content give us an intriguing insight into how medieval mapmakers and readers saw their world By a close study of the context in which the mapmakers produced their work it can be shown that they were often striving to present and make sense of a world picture that naturally incorporated key events from the past at the same time showing a narrative of human spiritual development from the Creation to the Last Judgment From publisher s description **Data Book of Social Studies Materials and Resources** ,1980 **Walking Between Slums and Skyscrapers** Tsung-Yi Michelle Huang,2004-03-01 The book is concerned with the effects of globalization on living space i e the space of everyday life focusing specifically on East Asian metropolises such as Hong Kong Tokyo and Shanghai Globalization has given rise to accessible catch phrases such as the global village and this is a small world In each part of the book the author juxtaposes a social account of the city s urban space as it has been reshaped by the process of globalization with a private account of the urban landscape as experienced by its walkers as represented in the films of Wong Kar wai and Shinya Tsukamoto and the novels of Wang Anyi Rather than rest here the author wishes to show that for many of the inhabitants of the new global city the shrinking world phenomenon is deeply literal the lived space of everyday life is shrinking to make room for rezoning construction of new infrastructures space modification all in the name of urban development *Course of Study for Elementary Schools* Iowa.
