

THE STONEFORCE LIFE BOOK

By Rev. George E. Soroka and Mary Beth Stone

The search for the truth ends with George Soroka. Many surmise the God-essence, but he has truly tapped into the Energy of the Ages like none before. His easy-to-understand approach is a gentle mix of profound insights into the human condition and exploration into Everlasting Life. Many talk the talk, but George walks and breathes it. To live life fully and have all you desire, read this book, do the exercises and fully engage the Energy. I know it works because it has for me. Shake up the Energy and go for life's gusto!

Rev. Martha Smea, MBA, Business Consultant, Interfaith Minister and Transpersonal Counselor and Coach.

Life's Ponderous Adventure Ed Grover, 2022-08-03 The author hopes this book will bring to the reader's attention and focus the value in reflecting on various often differing perspectives of our world It seems many people live out their lifetime rather unthinkingly without ever considering seriously any purpose for their life beyond immediate personal pleasures and satisfactions Then they die so they seem to think A little intuition and insight soon reveals there is much more to our world than what we can see and that each of us has a real purpose for our existence A basic truth the author points to is that human purpose is unattainable in isolation Our thoughts no matter how lofty are worthless unless they are communicated and shared with others in love And so he says he writes This book brings forth numerous ideas and inventions discoveries and talents revealed in literary mathematical and art forms all manifestations of God's handiworks revealed through our humanness The book also points to the humble efforts the drudgeries of routines even the poverty of so many humans and how God values and honors every individual who sincerely lives to please our Creator God no matter their station in life God's creativity didn't end the sixth creation day Yes God rested on the seventh day and He instructed us to do the same God's creative time marches forward never static but rather dynamic energetic ever changing evolving with ever emerging newness and promise Amazingly God endorses and promotes our own human creativity with an important caveat It is difficult to find a place on our earth's surface not rearranged to suit our human generational whims In so many situations we have failed to clean up our messes God gave us humans dominion over the whole earth What we've collectively failed to understand or live up to is that dominion involves responsibility conservation and ownership Ever since the reformation and its associated human upheavals technology has with continuing acceleration produced marvelous time saving creative accomplishments That is for the minority of us humans fortunate enough to access them But what about the majority the masses of forgotten humans worldwide living in deep poverty often homeless their own resources confiscated by greedy entrepreneurs And what about earth's surface so deeply wounded and scarred by human mining interests Sad to say if the tables were reversed and the presently forsaken masses of humanity were somehow to become the privileged it would be no different We humans are all selfish sinners So who's responsible Don't blame Satan and his demons All they do is suggest to us mindful humans Every evil ever manifested could be traced back to human sins And is there any possible solution to the messes we've made Of course there is but few find it The whole creation life and humanity Satan and his demons the beauties and the sufferings all come into focus in Jesus It's all about Jesus and his love for us humans The author's writing

style is suggestive of an ascending vortex cyclone of information that first focuses on some primary aspects of us and our world written for the early childhood reader It then spirals upward to give the reader deeper perspectives on similar topics now written in format readable by primary students Continuing to spiral upward it is now addressed to intermediate level students utilizing still greater depth of reasoning and language used Finally the book looks deeper into advanced studies of some chosen topics Bless us all dear Lord in our efforts to better know your creation and You **The Observatory**, 1897

The Erotics of Materialism Jessie Hock, 2021-01-15 In *The Erotics of Materialism* Jessie Hock maps the intersection of poetry and natural philosophy in the early modern reception of Lucretius and his *De rerum natura* Subtly revising an ancient atomist tradition that condemned poetry as frivolous Lucretius asserted a central role for verse in the practice of natural philosophy and gave the figurative realm a powerful claim on the real by maintaining that mental and poetic images have material substance and a presence beyond the mind or page Attending to Lucretius's own emphasis on poetry Hock shows that early modern readers and writers were alert to the fact that Lucretian materialism entails a theory of the imagination and ultimately a poetics which they were quick to absorb and adapt to their own uses Focusing on the work of Pierre de Ronsard Remy Belleau John Donne Lucy Hutchinson and Margaret Cavendish *The Erotics of Materialism* demonstrates how these poets drew on Lucretius to explore poetry's power to act in the world Hock argues that even as classical atomist ideas contributed to the rise of empirical scientific methodologies that downgraded the capacity of the human imagination to explain material phenomena Lucretian poetics came to stand for a poetry that gives the imagination a purchase on the real from the practice of natural philosophy to that of politics In her reading of Lucretian influence Hock reveals how early modern poets were invested in what Lucretius posits as the materiality of fantasy and his expression of it in a language of desire sex and love For early modern poets Lucretian eroticism was poetic method and *De rerum natura* a treatise on the poetic imagination initiating an atomist genealogy at the heart of the lyric tradition *Life of General George Gordon Meade* Richard Meade Bache, 1897 *The Art of Law in the International Community* Mary Ellen O'Connell, 2019-05-16 Aesthetic philosophy and the arts offer an innovative and attractive approach to enhancing international law in support of peace

Mad Worlds Collide Tony Teora, 2004-06 Warning *Mad World Collide* is an outrageously zany sci fi comedy that will laugh you into the funny farm In year 2021 Robert Davichi thinks he has the worst computer job in the world until a hacker threatens his life and starts bringing down corporations and governments In the midst of this the military tries to conquer America via the Internet a neurotic computer gains consciousness and starts communicating with evil harebrained aliens from afar and the President finds an abundance of gas in his alimentary canal Robert's life is thrown into cosmic chaos trying to solve one disaster after another The story careens between Japan America and a spaceship orbiting near the moon The book will entertain a wide range of readers according to Peter Heyrman a fiction writer who is published in *Twilight Zone* magazine Peter with a sense for the warped edited *Mad Worlds Collide* stating it is funny and on the edge *A Compleat*
