Stories Of Genesis:

The Story of All Stories: Genesis 1-11 Darrell W. Johnson, 2019-02 The most basic and natural way we seek to understand who we are where we are what is wrong with us especially why we die and how we can be restored is by telling stories Every culture in every era in every part of the world has a story or stories by which people navigate the mystery of being human on earth In this series of expositions Darrell Johnson suggests that the first eleven chapters of Genesis what he and others maintain constitute the first half of the Bible help make sense of all our other stories for they speak to the fundamental questions we as in every age When we inhabit the story stories of Genesis 1 11 Johnson further suggests we come to realize just how good the good news of Jesus Christ is in the second half of the Bible Darrell W Johnson has been preaching the gospel for fifty years having served with churches in British Columbia California and the Philippines He has taught preaching and pastoral theology at Fuller Theological Seminary Carey College and Regent College where in his semi retirement he serves as teaching fellow He is the author of eight other books He and his wife Sharon have raised four children adopted from four different countries of the world and now enjoy eleven grandchildren

Easy to Read Bible Stories eric klein, 2019-01-04 Easy to Read Bible Stories was inspired by Eric s niece whom requested to hear Bible stories that would make more sense to her Reading stories straight from the Bible exacted a response from the eight year old girl No not like that it has to be from your heart Eric at the time was still a new Christian and didn t know many of the stories However it seemed that the persistence of his niece was more than just a little girl wanting to spend time with her uncle but a way that God was reaching out to him even if he didn t know it them After months of reading and recording the stories from Genesis and other books Eric s niece had asked him a very peculiar question what about the other kids in the world that don t have anyone to read them bible stories What about them he replied You should write a book so they can understand the stories too she exclaimed The thought of writing a book had never crossed his mind before especially not a religious book However as weeks turned into months that small voice in the back of his mind kept reminding him of his niece s request Approximately six months later Easy to Read Bible Stories was born and to his surprise more adults loved the book around the world than kids After many inquiries into the surprising change in audience Eric learned that the number one excuse most adults use for not reading their Bible is It just doesn t make any sense to me Eric s writing style is unique in its own way Rather than trying to rewrite a new version of someone else s story Eric simplifies it and adds a life like conversational style to it with a touch of sarcasm which really makes it come to life Eric believes that every character in every story just wants to be heard like the rest of us The stories are written to make the characters seem more realistic as if their life were being narrated

a leading Dutch woman biblical theologian who studied under Umberto Eco is a brilliant new approach to the creation stories in the first eleven chapters of Genesis Contrary to those who believe that our time is seeing the end of the great stories and that only science and the facts count she argues that storytellers and poets can stand closer to experience and feelings and give expression to something which is equally a given and that these early chapters of the Bible contain some of the most important stories ever written First comes a discussion of the accounts of the creation of the world paradise and the fall Cain and Abel Noah and the Flood and the building of the Tower of Babel often shedding quite a new light on familiar material Then after some basic reflections come creation stories of a different kind from Asia Australia America Africa and Europe from the Rig Veda and the Enuma Elish through myths and legends to Hesiod's theogony the Edda and the Kalevala Finally there is a discussion of the scientific account of creation and evolution and how it relates to all that has gone before The book ends with two stories of earth by contemporary Indians from Brazil and North America
