Teachers And Classes

Brendan G. Carr

Teachers And Classes:

Teaching Large Classes Elisa Lynn Carbone, Elisa Carbone, 1998-05-27 In this useful and practical book Elisa Carbone offers a wealth of sound advice on how to deal with a large class from the first day to end of term evaluations Full of examples taken from many different disciplines Teaching Large Classes will be an ideal companion for any teacher facing the challenge of the large introductory class

A Study of Teacher Training in Vermont Robert McCurdy Steele, 1926

Teachers and Classes Kevin Harris, 2017-05-04 In this study first published in 1982 the author draws on his considerable experience at all levels in the school system to present a radical Marxist critique of that structure He argues that the schooling process within contemporary corporate capitalism is inimical to education while true education in turn is inimical to capitalism He argues further that teachers who are participants in ongoing class struggle can begin to be concerned primarily with education only when they perform the function of the collective labourer This title will be of interest to students of education and sociology

2018 Results (Volume II) Teachers and School Leaders as Valued Professionals OECD, 2020-03-23 This report aims to provide an in depth analysis of teachers and school leaders perceptions of the value of their profession their work related well being and stress and their satisfaction with their working conditions It also offers a description of teachers and school leaders contractual arrangements opportunities to engage in professional tasks such as collaborative teamwork autonomous decision making and leadership practices

Learning to Teach Small Classes Maurice Galton, Kwok Chan Lai, Kam Wing Chan, 2014-08-13 The justification for smaller classes has traditionally been that students can receive more individual attention and be provided with a curriculum that promotes student centred learning However in Asia where student engagement is generally over 90% in primary school classrooms the focus of smaller classes is for teachers to increase the quality of their teaching building on the already impressive levels of student engagement Learning to Teach Small Classes comprehensively instructs teachers on ways they can utilise the advantage of a smaller class to its fullest potential It works through different case studies and gives examples of successful classroom practice in each of the core subject areas Chinese English and Mathematics Chapters include Setting Objectives Asking and Answering Questions Sustaining Successful Group and Pair Work The Use of Feedback and Assessment for Developing Independence in Learning Bringing it all together and Sustaining Effective Practice With questions for discussion and further suggested reading this book is an invaluable resource for anyone involved in small class teaching and East Asian teaching and education policy

Teaching Naked Techniques José Antonio Bowen, C. Edward Watson, 2017-01-03 Put Teaching Naked to work in your classroom with clear examples and step by step guidance Teaching Naked Techniques TNT is a practical guide of proven quick ideas for improving classes and

essential information for designing anything from one lesson or a group of lessons to an entire course TNT is both a design guide and a sourcebook of ideas a great companion to the award winning Teaching Naked book Teaching Naked Techniques helps higher education faculty design more effective and engaging classrooms The book focuses on each step of class preparation from the entry point and first encounter with content to the classroom surprise There is a chapter on each step in the cycle with an abundance of discipline specific examples plus the latest research on cognition and technology quick lists of ideas and additional resources By rethinking the how when and why of technology faculty are able to create exponentially more opportunities for practical student engagement Student centered activity driven and proven again and again these techniques can revolutionize your classroom Create more effective engaging lessons for higher education Utilize technology outside of the classroom to better engage during class time Examine discipline specific examples of Teaching Naked Techniques Prepare for each class step by step from the student s perspective Teaching Naked flips the classroom by placing the student s first contact with the material outside of class This places the burden of learning on the learner ensures student preparation and frees up class time for active engagement with the material for more effective learning and retention Teaching Naked Techniques is the practical guide for bringing better learning to your classroom
