

Undersea Homes

RD Boyd

Undersea Homes:

Rain Forest Homes Althea, 1985-12-19 Describes different types of habitats which exist under the surface of the sea and the kinds of animals living there including less familiar inhabitants of coral reefs mollusks and worms on the sea floor and phosphorescent deep sea fish

The Stuff of Science Fiction Gary Westfahl, 2022-10-07 While students and general readers typically cannot relate to esoteric definitions of science fiction they readily understand the genre as a literature that characteristically deals with subjects such as new inventions space robot and aliens This book looks at science fiction in precisely this manner with twenty one chapters that each deal with a subject that is repeatedly addressed in science fiction of recent centuries Based on a packet of original essays that the author assembled for his classes the book could serve as a supplemental textbook in science fiction classes but also contains material of interest to science fiction scholars and others devoted to the genre In some cases chapters offer thorough surveys of numerous works involving certain subjects such as imagined vehicles journeys beneath the Earth and undersea adventures discovering intriguing patterns in the ways that various writers developed their ideas When comprehensive coverage of ubiquitous topics such as robots aliens and the planet Mars is impossible chapters focus on major themes referencing selected texts A conclusion discusses other science fiction subjects that were omitted for various reasons and a bibliography lists additional resources for the study of science fiction in general and the topics of each chapter

Undersea World of Tomorrow Vladimir Kovalik, Nada Kovalik, 1969 Describes future industry on the floor of the ocean as men and women look for oil move whale herds round up schools of fish and do kelp farming using methods that today's scientists deem feasible but have not yet perfected

Rank and Religion in Tikopia (Routledge Revivals) Raymond Firth, 2013-09-05 Originally published in 1970 this book represents a unique study of beliefs and ritual practices in a pagan religion and of the processes by which a transformation to Christianity took place Christianity came to the major islands of Polynesia nearly two centuries ago and within a couple of generations the traditional pagan religion had disappeared Only a few remote islands such as Tikopia preserved their ancient cults Over eighty years ago the author first observed and took part in these pagan rites and on later visits he studied the change from paganism to Christian faith Unique in its rich documentation this book presents a systematic account of the traditional beliefs in gods and spirits and of the way in which these were fused with the social and political structure The causes and dramatic results of the conversion to Christianity are then described ending with an examination of the religious situation at the time of the book's original publication The book is both a contribution to anthropology and a case study in religious history It completes the major series of studies of Tikopia society for which the author is famous It gives the first full account of a Polynesian religious system in a state of change
