

$$U(z) = (z, 4i; 9, -4)$$

$$= \frac{z-4}{z+4} \cdot \frac{4i+4}{4i-4}$$

$$= \frac{(1+i)z-4i-4}{(1-i)z+4i-4}$$

$$S(z) = (z, 4i; -1+i, 2-2i)$$

$$= \frac{z+1-i}{z+2+2i} \cdot \frac{4i+2+2i}{4i-1+i}$$

$$= \frac{2z+2-2i}{z+(2+2i)}$$

Transform

$$S = \begin{pmatrix} z & 2-2i \\ 1 & 2+2i \end{pmatrix}$$

To obtain our second state transformation $T(z)$, we perform

$$B^{-1} A \begin{pmatrix} z+2i & -2i \\ -1 & 2 \end{pmatrix} \begin{pmatrix} 1+i & -4 \\ 1-i & 4 \end{pmatrix}$$

$$= \begin{pmatrix} 2i-2+2+2i \\ -1+i-2 \end{pmatrix}$$

$$= \begin{pmatrix} 4i \\ -1-i \end{pmatrix}$$

This occurs
 $\therefore T(z) = \dots$

Understanding And Explanation:

Understanding, Explanation, and Scientific Knowledge Kareem Khalifa, 2017-10-05 From antiquity to the end of the twentieth century philosophical discussions of understanding remained undeveloped guided by a received view that takes understanding to be nothing more than knowledge of an explanation More recently however this received view has been criticized and bold new philosophical proposals about understanding have emerged in its place In this book Kareem Khalifa argues that the received view should be revised but not abandoned In doing so he clarifies and answers the most central questions in this burgeoning field of philosophical research what kinds of cognitive abilities are involved in understanding What is the relationship between the understanding that explanations provide and the understanding that experts have of broader subject matters Can there be understanding without explanation How can one understand something on the basis of falsehoods Is understanding a species of knowledge What is the value of understanding

Explanation and Understanding in the Human Sciences Gurpreet Mahajan, 1992 Social scientists explain events by identifying reasons and causes Occasionally they weave a series of occurrences into a historical narrative What is entailed in each kind of explanation What are the philosophical assumptions that inform them Which form of explanation is adequate for the human sciences Does the hermeneutic method offer a viable alternative to the causal and narrative forms Is hermeneutic understanding significantly different from an explanation in terms of reasons This book addresses such questions which have dominated debates in the philosophy of social science and provides a lucid treatment of issues concerning the adequacy of different forms of explanation In her analysis the author distances herself from those who refer to the distinction between the natural sciences and the social sciences either to discredit or to privilege a particular method for the study of social phenomena Instead she argues that social reality can be conceived in different ways and that different forms of inquiry e.g. hermeneutic understanding narrative reason action and causal explanation represent various ways in which we think about and interrogate that reality Each of these illuminate a specific dimension of reality and serve different cognitive interests While acknowledging the significance of various modes of explanation and understanding for the human sciences the author maintains that the significance of the hermeneutic mode lies in its distinctive conception of social reality history and knowledge This conception must inform all analysis of social and historical phenomena To the extent that narrative can be creatively informed by hermeneutic philosophy it can offer adequate explanations of social and historical events
