Happy Retirement? Sarah Vickerstaff, 2004-07-07 Any attempt by governments to stem the tide of early retirement will need to focus as much on employers' management of human resources as on the impacts of social policy. This report focuses on this previously neglected area: employers' policies and practice as a dynamic force in retirement decisions. Drawing on data from a series of organisational case studies that situate the individual's decisions and experience in the context of employers' age management policies, the report examines how the retirement process is currently managed in a range of organisations, identifies barriers to effective planning for retirement, considers whether individuals feel there is enough choice when facing decisions about retirement, and addresses the concerns of both researchers and academics in the fields of human resource management and social policy. *Federal Military Pensions in the United States* William Henry Glasson, 1918

Under ERISA Garrison Lee, 1997 This complete guide helps any paralegal involved with tax-qualified pension plans become more conversant with the concepts embodied in ERISA, guiding you in becoming more proficient in applying ERISA's technical requirements to everyday tasks. The book helps the new ERISA practitioner get organized, take the initiative, think independently, and perform many of the standard tasks required to service clients' tax-qualified plans. For experienced ERISA practitioners, the book's content offers a fresh approach to organizing the usual tasks, suggests ways to improve habitual methods, and fills the occasional minor gaps in knowledge that ERISA practitioners have inevitably even when working in well-known territory. Also included is an IBM-compatible disk with forms for all types of pension, health, and welfare plans.
