## **Using Academic Program Review:**

*Using Academic Program Review* Robert J. Barak, Lisa A. Mets, 1995-12-19 Much has been written about proper implementation of program review. Extensive advice is available to help those implementing or revitalizing program review processes to avoid common pitfalls and build strengths into the processes. A factor for gauging the effectiveness of program review is the extent to which results of program reviews are used for other meaningful purposes. Literature on the use of review results is less prevalent. Institutional researchers and others need to know more about program review's role in program improvement and institutional decision making. Questions that need to be answered include the following: Are the program review reports and recommendations an integral part of the institution's budget process? What is the role of academic program review in strategic planning? Can the program review process be linked to the institution's outcomes assessment process? The purpose of this volume is to provide planners and institutional researchers with information on the uses of program review results in colleges and universities. This is the 86th issue of the quarterly journal *New Directions for Institutional Research*.

Rose, 2023-11-09 In this second volume of the successful *Exemplars of Assessment in Higher Education* editors Souza and Rose share examples of assessment practice from over fifteen distinct and diverse Higher Education Institutions including international contributions. Building upon the work of the first volume, the case studies in this book reflect the changes in assessment and higher education in the post-Covid education environment. The institutions that appear in this book were chosen for having an effective assessment approach in one or more of the following areas: career readiness, distance education, diversity, equity, and inclusion, or general education. Each part of the book discusses one of these four areas with chapters that feature real-life examples from the educators who teach at the college or university.

Featuring a Foreword by AAC U President Lynn Pasquerella the work highlighted in this book is also aligned with AAC U s Valid Assessment of Learning in Undergraduate Education VALUE initiative to help educators make the best decisions about measuring student learning This book is ideal for university educators and assessment practitioners looking to diversify and enhance their assessment practices A Co Publication with AAC U

*Taking Ownership of Accreditation* Amy Driscoll, Diane Cordero De Noriega, 2023-07-03 This book demonstrates how a participatory approach to assessment and accreditation in their new forms creates a synergy for learner centered education It is a guide to approaching the accreditation process from a campus wide perspective of ownership illustrated by rich descriptions of how faculty students and administrators at California State University Monterey Bay engaged with and successfully focused their accreditation processes on the improvement of their practices The approach that the authors describe was driven by a commitment to go beyond satisfying the accreditation expectations so as to promote ongoing and long term improvement of student learning It also reflects the shift of responsibility for assessment within institutions from a designated office to individual faculty and staff entire departments and the campus as a whole The authors document strategies that are practical ready to use or adapt that are appropriate for all campuses They also provide guidelines for the documentation process that accreditation demands They demonstrate how they reduced traditional resistance to assessment by emphasizing its use for the improvement of student learning helping faculty with their own teaching and creating frameworks for continuing improvements that are valued by faculty The authors emphasize the need for every institution to take into account its unique mission vision and core values and to recognize the importance of individual departmental cultures Although their accreditation triggered CSUMB s engagement with assessment the authors discuss other opportunities for jump starting the process
