Stranger Within:

The Stranger Within Jean Barr, 2008-01-01 Increasing numbers of people now receive a higher education Yet we still do not have that educated public about which the philosopher Alasdair MacIntyre wrote two decades ago The stranger within On the idea of an educated public reflects on this situation regarding the future shape of the university as a kind of public sphere in exile and a site of social and cultural interpenetration At its centre is a revaluation of the Scottish tradition of democratic intellectualism highlighted by George Davie in his book *The democratic intellect* 1961 Davie charts the gradual extinction in the Scottish universities of a type of higher education which encouraged breadth of study public engagement and through the compulsory study of philosophy a concern with theory and ideas The stranger within On the idea of an educated public seeks to reframe this Scottish tradition and its associated ideal of an educated public in light of recent debates concerning cultural difference the nation imperialism and globalisation It investigates how the radical social purpose inherent in the democratic intellect tradition might be re vitalised to become a feature of higher education and of a more broadly based popular education worldwide The book is underpinned by philosophical social and cultural studies and it draws specifically on radical adult education practices related to social movements and to liberating knowledge from below It should be a valuable resource for academics from different disciplines who wish to communicate across disciplines about key issues of the day to managers in higher education who wish to counteract the fragmentation of disciplines and to adult community and lifelong education workers and members of the wider public who seek strategies to counter current educational and lifelong learning orthodoxies
