**Leonardo da Vinci:
The Daedalian Mythmaker**, This study is the first to consider the whole body of Leonardo's works with an eye to a
comprehensive interpretation that combines both cultural history and the history of ideas According to Maiorino Leonardo
was a mythmaking mode of activity that had a Daedalian range and affected art and technology alike As both artist and
inventor Leonardo did not separate reason from experience empiricism from abstraction an attitude Maiorino characterizes
as Anti Humanism Rather than accepting the earlier view that the culture of the Renaissance was divided against itself or
that it came to be divided he argues that anti Humanism was present from the start in such founders as Petrarch and Alberti
and continued to be a current in later authors and artists hence the significance of Leonardo to Humanism and to Baroque
and Renaissance culture at large
