When We Were Ten:

When We Were Ten Dennis R. Floyd, 2016-07-12 Two ten year old boys and a nine year old girl meet in Denver during the 1952 Huckleberry Finn fishing contest at Washington Park They become fast friends and soon discover a cave in a nearby swamp that becomes the focal point for a summer of adventure that ends with a tragedy and a miracle The three friends go their separate ways in life but reconnect again in Denver thirty three years later The girl now a woman hears Dr Morris Massey advance the thesis What you are is where you were when you were ten She shares this concept with her old friends at their reunion and as their lives intertwine again they experience an even worse tragedy and a greater miracle This exciting and fast paced tale serves to validate Massey's theory for the reader It also prompts worthwhile introspection not only of one's own life but the lives of those ten year olds who may come under our influence
