Taking Lives

Great Britain. Parliament

Taking Lives:

Taking Lives Michael Pye, 2007-12-18 Martin Arkenhout found his true calling on a lonely Florida highway with a sharp rock to the skull of an injured friend He didn't just take the boy's life he went on to live it When that life became too risky he found another and another changing his name papers and style at will until he chose the wrong life a scholarly thief on the run from the determined and troubled John Costa The two men will meet and there will be murder But there is something much worse the sweet seduction of taking another's life to be your own Chillingly suspenseful brilliantly executed and truly disturbing Taking Lives is an entertainment to make you think and shiver *Taking Lives* Irving Louis Horowitz, Taking Lives is a pivotal effort to reconstruct the social and political contexts of twentieth century state inspired mass murder Irving Louis Horowitz re-examines genocide from a new perspective viewing this issue as the defining element in the political sociology of our time The fifth edition includes approximately 30 percent new materials with five new chapters The work is divided into five parts Present as History Past as Prologue Future as Memory Toward A General Theory of State Sponsored Crime Studying Genocide The new edition concludes with chapters reviewing the natural history of genocide studies from 1945 to the present along with a candid self-appraisal of the author's work in this field over four decades Taking Lives asserts that genocide is not a sporadic or random event nor is it necessarily linked to economic development or social progress Genocide is a special sort of mass destruction conducted with the approval of the state apparatus Life and death issues are uniquely fundamental since they alone serve as a precondition for the examination of all other issues Such concerns move us beyond abstract formalist frameworks into new ways of viewing the social study of the human condition Nearly all reviewers of earlier editions have recognized this Taking Lives is a fundamental work for political scientists sociologists and all those concerned with the state's propensity toward evil
