This title includes a Foreword by John W Bachman Professor of Medicine Mayo Clinic College of Medicine Rochester Minnesota Mastering the art of medical practice management requires knowledge that most physicians don't learn in medical school residency and fellowship training Successful practice management in the 21st century requires physicians to understand how to organize and manage a practice manage their finances recruit work with and manage people within and outside of the practice improve healthcare delivery and clinical outcomes and ensure compliance with federal state and local laws and regulations Medical Practice Management in the 21st Century The Handbook addresses multiple aspects of medical practice management It offers both background information and practical tools The workbook format supported by web based tools allows busy physicians to gain a basic understanding of many topics determine strategies for their practices and seek additional information when they want it This guide will be ideal for both physicians who need business guidance as they begin their careers and physicians who are already in practice and want to enhance their business skills Many physicians can't afford or choose not to hire a professional practice administrator or manager this book will help them assume managerial responsibilities with the same level of confidence that they bring to clinical care Physicians in academic medical centers who manage departments programs or research studies will also benefit This book is essential for any clinician planning to open a new practice or attempting to improve the quality and efficiency of an existing practice Read and learn John Bachman MD in the Foreword Written for the busy practitioner clear concise and practical without any wasted space I wish I had had this resource when I was starting practice It's the bible for practice management just as the Washington Manual was in earlier years Robert S Galvin MD Director of Global Healthcare for General Electric Important Crosses many boundaries covering a wide variety of topics Guides physicians in developing the infrastructure that they need to succeed John Fallon MD Chief Physician Executive Blue Cross Blue Shield of Massachusetts There is no better book or resource to use to develop the necessary proficiency to run a first class stellar practice than this All who read this book will be able to ensure that every patient has a positive experience with your practice and will not only enjoy the experience but will tell other physicians their family and their friends about you and your practice and thus make your practice thrive and prosper Dr Neil Baum Clinical Associate Professor of Urology Tulane Medical School New Orleans Louisiana I love the chapter on financial management It is very complete and gives a non business major a good grasp of complicated information Allen R Wenner MD family medicine practitioner West Columbia Family Medicine South Carolina I like the format of the exhibits In the chapter on financial management the side by side problem solution approach is easily understandable and lends itself to a solution oriented approach I can spot my own practice's issues and immediately understand what to do without searching through a lot of text
