Excellence In Life Om Prakash Shukal, 2007-10-30 In late 1980s I was controlling a large staff which had their own personal problems but slowly the staff members started approaching me for guidance though this was not part of my official duty as such in the beginning I was reluctant to render any advice but I found that if the problems are not sorted out in a sympathetic manner then this leads to loss of output and at times even led to accidents As such I started giving tips

and encouraged them to solve their problems in their own ways This helped many and issues were solved amicably To render better service I started referring many books on human affairs and psychology The study increased my knowledge base and I gained good experience All the time I was preparing notes and slowly the notes became bigger and bigger The formation of a book has started and further research was done to improve upon it Based on my experience and interaction with the people the notes were grouped under four aspects Religious Spiritual Scientific and Materialistic and how one achieves progress in these aspects Excellence in life is a reference book where subject matter has been arranged in a logical manner as civilizations developed in a different parts of the world I hope that the readers will be benefited out of this book and they will develop confidence in tackling the problems as they arise in life Soon world would become a happier place to live in and harmony will prevail amongst all Book is only a beginning and not the end
