Writing Ancient History:

History as Text Averil Cameron, 1989 **Writing Ancient History** Luke Pitcher, 2010-01-30 History is the version of past events that people have decided to agree upon said Napoleon Yet the actual writing of history especially ancient history is a practice that often prompts more discord than assent In his new textbook Luke Pitcher aims to overcome the hostility which exists between two rival camps in their study of classical historiography The first camp looks at the classical historians with an eye to what data they can provide about the ancient world The second camp examines the ancient writers as literary texts in their own right employing the tools of literary criticism and engaging with such matters as narrative artistry Attempting to fuse these two mutually suspicious approaches Luke Pitcher's attractive introduction offers undergraduate students of classics the first comprehensive introduction to historiography in antiquity on the market It unites the nitty gritty of the historian's trade the finding and managing of data to an awareness of the importance of style form allusion and composition The book also seeks to do justice to individual classical historians and discusses such important figures as Livy Tacitus Herodotus Cicero Plutarch and Lucian A comprehensive bibliography and glossary are included Writing Ancient History at last does full justice to the mechanics of history writing in the ancient world Writing Ancient History Neville Morley, 1999 How do ancient historians pursue their craft From the evidence of coins pottery shards remains of buildings works of art and above all literary texts all of which have survived more or less accidentally from antiquity they fashion works of history But how exactly do they go about reconstructing and representing the past How should history be written These and related questions are the subject of Neville Morley's engaging introduction to the theory and philosophy of history Intended for students and teachers not only of ancient history but of historiography the philosophy of history and classics his book addresses the implications of debates over methodological and theoretical issues for the practice of ancient history At the present time Morley says students of ancient history are left to come to their own understanding of the field through a process of trial and error In his view too many professors regard questions of theory and methodology as pointless distractions from the business of actually doing history Worse these questions may even be perceived as a threat to the subject Asserting that more attention must be given to fundamental matters Morley considers such topics as the nature of historical narrative style in historical writing the use and abuse of sources and the reasons for studying history Bloomsbury Publishing *Reading Inscriptions and Writing Ancient History* William Stenhouse, 2005 This book shows how the work of a group of scholars active in Rome in the mid sixteenth century redefined the scope and nature of historical writing In collecting and comparing inscriptions from Classical Rome they began to question the value of these inscriptions as historical sources *Ancient History-based Writing Lessons* Lori Verstegen, 2018 Discover and be amazed at the wonders of the ancient world while learning to write with structure and style This new edition of Ancient History Based Writing Lessons teaches IEW's structural units 1-9 are taught in order elements of style are introduced gradually A set of creatively
