Big Ideas for Little Kids Thomas E. Wartenberg, 2014-05-01 Big Ideas for Little Kids includes everything a teacher a parent or a college student needs to teach philosophy to elementary school children from picture books Written in a clear and accessible style the book explains why it is important to allow young children access to philosophy during primary school education Wartenberg also gives advice on how to construct a learner centered classroom in which children discuss philosophical issues with one another as they respond to open ended questions by saying whether they agree or disagree with what others have said

Epistemology and Emotions Dr Dominique Kuenzle, Dr Georg Brun, Dr Ulvi Doguoglu, 2012-10-01 Undoubtedly emotions sometimes thwart our epistemic endeavours But do they

also contribute to epistemic success The thesis that emotions skew the epistemic landscape as Peter Goldie puts it in this volume has long been discussed in epistemology Recently however philosophers have called for a systematic reassessment of the epistemic relevance of emotions The resulting debate at the interface between epistemology theory of emotions and cognitive science examines emotions in a wide range of functions These include motivating inquiry establishing relevance as well as providing access to facts beliefs and non propositional aspects of knowledge This volume is the first collection focusing on the claim that we cannot but account for emotions if we are to understand the processes and evaluations related to empirical knowledge All essays are specifically written for this collection by leading researchers in this relatively new and developing field bringing together work from backgrounds such as pragmatism and scepticism cognitive theories of emotions and cognitive science Cartesian epistemology and virtue epistemology
