**The Pilgrim's Guide to the Workplace** Agustin Chevez, 2022-08-29 This is an Open Access book Hoping to incubate a unique idea about workplace design Dr Agustin Chevez walked in isolation for 42 days from Melbourne to Sydney His pilgrimage delivered 34 Signposts a collection of insights which hold the promise to guide us to a better place to work While firmly positioned within the shifting context of work the Signposts point away from reactive solutions with a short shelf life Instead these markers are infused with a diversity of thought instilled by Agustin s pilgrimage and reclaim the forgotten qualities of solitude boredom adversity and absurdity as mechanisms to deliver innovation and create improved working environments On his way to Sydney Agustin relied on maps and people with local knowledge of the lands he traversed Similarly in this book he consults people with local knowledge in various design disciplines management and technology as he navigates the many regions of the workplace and work practices covered by the Signposts When he reaches the end of the known trails he starts laying paths that take us closer to where the Signposts converge Agustin writes from the perspective of a pilgrim architect workplace consultant and researcher and invites you to join him as a fellow pilgrim You will be rewarded with a journey that revisits our assumptions about the way we use space to host the ever evolving notion of work an expedition leading not only to better versions of the workplace but a better version of ourselves This book takes about three hours to read and it could take a lifetime to fully extract all the benefits that it contains This does not suggest that there are not immediate benefits available from reflecting on and applying the Signposts that are core to the book s intellectual contribution Peer Review extract

*Community Empowerment, Sustainable Cities, and Transformative Economies* Taha Chaiechi, Jacob Wood, 2022-01-12 This edited volume presents the conference papers from the 1st International Conference on Business Economics Management and Sustainability BEMAS organized by the Centre for International Trade and Business in Asia CITBA at James Cook University This book argues that the orthodox methods of external risks climate change adaptation plans and sustainable economic growth in cities are no longer adequate These methods so far have not only ignored the ongoing structural changes associated with economic development but also failed to account for evolving industries

composition and the emergence of new comparative advantages and skills Specifically this book looks at the vulnerable communities and exposed areas particularly in urban areas that tend to experience higher susceptibility to external risks such as climate change natural disasters and public health emergencies have been largely ignored in incremental adaptation plans Vulnerable communities and areas not only require different adaptive responses to climate risk but also possess unlocked adaptive capacity that can motivate different patterns of sustainable development to achieve the goals of the 2030 Agenda It is essential therefore to view transformative growth and fundamental reorientation of economic resources as integral parts of the solution Social disorganisation and vulnerability are other undesired outcomes of the unpredictable and widespread external economic shocks This is due to a sudden and tough competition between members of society to acquire precious resources most of which may be depleted during unprecedented events such as natural disasters or pandemics resulting in an even more chaotic and disorganised conditions
