Linking the Space Shuttle and Space Stations David J. Shayler,2017-06-27 How could the newly authorized space shuttle help in the U S quest to build a large research station in Earth orbit As a means of transporting goods the shuttle could help supply the parts to the station But how would the two entitles be physically linked Docking technologies had to constantly evolve as the designs of the early space stations changed It was hoped the shuttle would make missions to the Russian Salyut and American Skylab stations but these were postponed until the Mir station became available while plans for
