Rucker, 2010-02-09 Encyclopedia of African American History introduces readers to the significant people, events, sociopolitical movements, and ideas that have shaped African American life from earliest contact between African peoples and Europeans through the late 20th century. The encyclopedia places the African American experience in the context of the entire African diaspora with entries organized in sections on African-European contact and enslavement, culture, resistance, and identity during enslavement, political activism from the Revolutionary War to Southern emancipation, political activism from Reconstruction to the modern Civil Rights movement, black nationalism and urbanization, and Pan Africanism and contemporary black America. Based on the latest scholarship and engagingly written, there is no better go-to reference for exploring the history of African Americans and their distinctive impact on American society, politics, business, literature, art, food, clothing, music, language, and technology.
