**The English Language in Ireland** Jeremiah Joseph Hogan, 1927      **The English Language in Ireland** Diarmaid Ó Muirthe, 1985      *Irish English: The Influence of Irish on the English Spoken in Ireland* Ilona Sontag, 2013-03-04 Seminar paper from the year 2010 in the subject Didactics for the subject English Pedagogy Literature Studies grade 2 3 RWTH Aachen University Institut für Anglistik Angewandte Sprachwissenschaft course Variety in English language English abstract Loreto Todd states in his book *Green English* one very important sentence concerning English in Ireland that depicts the basis on which this term paper is built upon The language spoken in Ireland is similar to the language spoken in England similar but by no means identical This term paper will deal with the kind of English spoken in Ireland today<sup>1</sup> and how it differs from English spoken in England or America<sup>2</sup> especially taking the influence of the native language of Ireland into account Because of the space limitations it will only serve as an overview covering the most important grammatical features in which Irish English IrE differs from Standard English StE for instance phenomena concerning phonetics word stress rhythmic retentions syntax and semantics Concerning each field of study some striking features of IrE will be described and explained by the use of examples It will be of special interest to what extent the differences date back to the influence of the Irish mother tongue Gaelic<sup>3</sup> Since English is a relatively new language in Ireland it will be the aim of this paper to find out if today's linguistic phenomena of IrE can be traced back to the period of the language shift from Irish to English While by now most of the Irish people's mother tongue is English it is still probable that the people are still influenced by their past at least by means of language Because of this certain approach towards IrE all the analysed features in this term paper will be a selection of features that somehow have to do with the native language of Ireland Before the analysis of grammatical features a brief overlook over the terminology concerning the term Irish English as well as an outline of the history of the English language in Ireland will be given After the analysis a last part will be stated in which it will be of interest to how far the Irish accent can be seen as part of the national identity of the Irish people In the end a final conclusion will be stated It is important to mention that although the term IrE is used for a general variety of English in Ireland a lot of internal distinctions could be made These accents are linked to different regions and sometimes even differ from city to city Because of this complexity of the topic this term paper will not go into detail concerning the different accents

**The English language in the south of Ireland** Sarah Prigge, 2004-11-18 Seminar paper from the year 2004 in the subject English Language and Literature Studies Linguistics grade 1 0 A University of Flensburg language English abstract English is the language which is spoken all across Ireland in the Republic as well as in Northern Ireland Different varieties of the language can be found In the far north of the island the English which is commonly used is Ulster Scots a variety which is heavily influenced by Scots Mid Ulster English is also spoken in the north and is less Scots-influenced Together Ulster Scots and Mid Ulster English constitute what is known as Northern Irish English see Trudgill Hannah 1994 p102 The variety spoken in the

South of Ireland which is sometimes called Hiberno English see Harris 1984 p115 will in the following be referred to as Southern Irish English It is important to point out that the linguistic division between the north and the south of Ireland is not the same as the political borders Northern Irish English is not only spoken in Northern Ireland but also in some areas of the Republic of Ireland for example in Donegal The use of Southern Irish English on the other hand is quite common in some of the southern parts of Northern Ireland see Trudgill Hannah 1994 p102 In the following the historical development of the Southern Irish English variety will briefly be looked at before its main features in terms of pronunciation grammatical structures and lexis will be explored There is only little regional variation within Southern Irish English see Barnickel 1982 p117 and the few differences will here not be taken into consideration

mainly spoken by a few English settlers who lived in the south east of Ireland and during this time their language was exposed to considerable Gaelicisation Later several political and social changes allowed English to spread across the country and displace Irish as a native language roughly from east to west This book investigates historical and linguistic influences on different varieties of English spoken in both Northern Ireland and the Republic of Ireland Irish English shows a wide range of loan words from Latin Irish English and Scots This work gives a choice of these loan words and traces their derivation The choice of an accent used by a speaker can depend on various conditions e g social context educational background or regional influences This book discusses several accents spoken in Ireland and compares their phonological features to those of Received Pronunciation Like the use of phonological features the syntactic architecture chosen by speakers of IrE depends on the context of use Written IrE mostly follows the Standard English norm whereas informal IrE speech shows several differences to Standard English This thesis takes into account typical grammatical features of IrE and explains where and in which context they occur

**Irish English** Sebastian Birner, 2014-09-15 Studienarbeit aus dem Jahr 2010 im Fachbereich Anglistik Linguistik Note 2.0 Universität Bayreuth Sprache Deutsch Abstract Today it is common knowledge that the English language is not only located on the British Isles and the United States In fact it spread like wildfire all around the world and produced over 15 different varieties of English each of them being able to exhibit its own vocabulary pronunciation and grammar In the following I will provide an insight into a variety that is geographically the nearest one to the initial English language Irish English First of all I will give an overview about the arrival of English in Ireland then I will focus on a detailed analysis about the peculiarities of Irish English grammar and at the end I will draw attention to the diffusion of Irish English

**The English Language in Ireland** Jeremiah Hogan, 1972-01-01 **An Outline History of the English Language** Oliver Farrar Emerson, 1906 *Ireland & the English Crisis* Tom Paulin, 1984 In these brilliantly argued essays on Irish and English literature Tom Paulin shows how writers react to political struggles and cultural upheaval from Joyce in colonial Ireland and Auden in England in the Thirties to today's Belfast poet or Derry dramatist The keynote of this controversial book is the phrase writing to the moment And like Samuel Richardson whose motto this was Tom Paulin is writing in the instant about the present and for the current age Tom Paulin tackles the present crisis in English studies in a now notorious discussion of structuralism in education This exemplary incisive essay confronts critical fashions like deconstruction and exposes their destructive limitations The book includes Paulin's famous polemic against Conor Cruise O'Brien as well as his

careful rigorous account of Ian Paisley's writings and pronouncements. In these and in other essays he establishes a historical and cultural perspective exploring first the Englishness of D. H. Lawrence, John le Carr, and the expatriate Henry James, then the Anglo-Irishness of Oscar Wilde, William Trevor, and Louis MacNeice. These forceful essays will contribute to a tradition of critical independence. They will combat what Tom Paulin calls the terminal self-disgust with which much contemporary literary criticism is now afflicted.
