The Essential Guide to Mummy Literature Brian J. Frost, 2007-12-28 Few historical relics have exerted such a hold on our imaginations as the mummy In 1834 Thomas J Pettigrew s *A History of Egyptian Mummies* was the first scholarly work wholly devoted to the subject providing for its time a remarkable analysis of the different mummification techniques used by the ancient embalmers Such volumes of serious nonfiction have been supplemented over the years by additional works both scholarly and otherwise as well as works of fiction that incorporate and expand upon mummy lore Indeed the popular concept of the mummy as a malevolent monster dates back to the nineteenth century when stories about mummies rising from the dead to terrify the living first captured the imagination of the reading public and set the revived corpse on the path to becoming a major horror icon In *The Essential Guide to Mummy Literature* Brian J Frost provides the first in depth survey and bibliography of works of fiction featuring mummies In this comprehensive volume Frost traces the development of the mummy story paying particular attention to works by Victorian authors and pulp fiction writers as well as stories from the American pulp magazines The annotated bibliography provides synopses of all the key works of fiction in the mummy canon as well as others not so well known Full publication details for each entry with plot summaries of more than 500 works of fiction and abridged descriptions of 250 nonfiction books are provided Additionally a filmography is included along with listings of young adult novels children s storybooks and reference works for both adults and children Well organized and comprehensive *The Essential Guide to Mummy Literature* will appeal to devotees of the horror genre and students of popular literature as well as researchers and librarians

Wolves and the Wolf Myth in American Literature S.K. Robisch, 2009-05-28 *Wolves and the Wolf Myth in American Literature* examines the wolf s importance as a figure in literature from the perspectives of both the animal s physical reality and the ways writers imagine and portray it Inside jacket

The Mammoth Book of Best New Horror Stephen Jones, Ramsey Campbell, 2009 *The Shadow-walkers* T. A. Shippey, 2005 Elves and dwarves trolls and giants talking dragons valkyries and werewolves all these are familiar in modern movies and commercial fantasy But where did the concepts come from Who invented them Almost two centuries ago Jacob Grimm assembled what was known about such creatures in his work on Teutonic Mythology which

brought together ancient texts such as Beowulf and the Elder Edda with the material found in Grimm's own famous collection of fairy tales. This collection of essays now updates Grimm, adding much material not known in his time and also challenges his monolithic interpretations, pointing out the diversity of cultural traditions as well as the continuity of ancient myth.

Dissecting Stephen King Heidi Strengell, 2005. Heidi Strengell shows that by tapping into the wellsprings of the gothic to reveal contemporary phobias, Stephen King invokes the abnormal and repressed sexuality of the vampire, the hubris of Frankenstein, the split identity of the werewolf, the domestic melodrama of the ghost tale. Drawing on myths and fairy tales, he creates characters who, like the heroic Roland the Gunslinger and the villainous Randall Flagg, may either reinforce or subvert the reader's childlike faith in society. And in a manner of the naturalist tradition, he reinforces a tension between the free will of the individual and the daunting hand of fate. Jacket **Southern Humanities Review**, 2005. The Literary Review, 2004. *American Book Publishing Record*, 2004. The British National Bibliography. Arthur James Wells, 2005.

The Essential Monster Movie Guide Stephen Jones, 2000. This guide alphabetically lists 4000 plus horror movies and television shows, some very obscure that featured monsters. Each entry provides a plot synopsis, identifies the cast and director, and rates the film on a five star scale. No index. Originally published by Billboard Books c. Book News Inc.

Southern Humanities Review Auburn University (Ala.), 2005. **The Publishers Weekly**, 1929. International Bibliography of Book Reviews of Scholarly Literature Chiefly in the Fields of Arts and Humanities and the Social Sciences, 2004. **Choice**, 2005. *Goddesses and Monsters* Jane Caputi, 2004. The essays focus upon popular culture as it is informed by ancient and current mythic images, narratives, personalities, icons, and archetypes. Topics include the cult status of the serial sex killer, sexual murder as a contemporary form of religious sacrifice, pornography as an everyday narrative underlying not only sexism but also racism, homophobia, and militarism; the relation of incest to nuclearism; pornography and the sacred cyborg myth; and subtextual presence of ancient goddess figures in contemporary narratives, including that of Princess Diana. Film International, 2008. *King of the Cowboys, Queen of the West* Raymond E. White, 2005. And in a series of exhaustive appendixes, he documents their contributions to each medium they worked in. Testifying to both the breadth and the longevity of their careers, the book includes radio logs, discographies, filmographies, and comicographies that will delight historians and collectors alike. Jacket *Annual Bibliography of English Language and Literature* Modern Humanities Research Association, 2005. Includes both books and articles. **Book Review Index**, 2006. Every 3rd issue is a quarterly cumulation.
