Chinas Revolution from Below

Ian Johnson

'Compelling ... A beautifully spare recollection of three ordinary people who challenged the power of the Communist state' *The New York Times*

Wild Grass Chinas Revolt From Below

Julia Schneider

Wild Grass Chinas Revolt From Below:

Wild Grass Ian Johnson, 2011 Illuminating Johnson has not only lifted a corner of the curtain which covers China's reality beyond its glittering eastern cities he has drawn the whole curtain The Times Literary Supplement In Wild Grass Pulitzer Prize winning Ian Johnson describes a China caught between the desire for change percolating up from below and the ossified political structure above He recounts the stories of three ordinary people who find themselves finding oppression and government corruption risking imprisonment and even death A young architecture student a bereaved daughter and a peasant legal clerk are the unlikely heroes of these stories private citizens cast by unexpected circumstances into surprising roles

Contemporary China - An Introduction Michael Dillon, 2008-11-19 This book presents a concise introduction to contemporary China It is intended as a first book for those coming new to the subject providing the essential information that most people need to know without going into excessive detail Its coverage includes the economy society politics and international relations China's history especially the twentieth century and Taiwan and Hong Kong as well as the People's Republic of China The book provides an up to date and clear guide to the often bewildering changes which have taken place in China in the late twentieth and early twenty first centuries It draws on the enormous body of empirical and theoretical research that is being carried out by economists political scientists and sociologists on contemporary China but is itself written in non technical and accessible language It does not assume any previous knowledge of China and explanations of Chinese terms are provided throughout the book It includes a map a chronology a glossary of Chinese terms biographical notes on key figures and a guide to further reading

The Perfect Dictatorship Stein Ringen, 2016-05-01 The Chinese system is like no other known to man now or in history This book explains how the system works and where it may be moving Drawing on Chinese and international sources on extensive collaboration with Chinese scholars and on the political science of state analysis the author concludes that under the new leadership of Xi Jinping the system of government has been transformed into a new regime radically harder and more ideological than the legacy of Deng Xiaoping China is less strong economically and more dictatorial politically than the world has wanted to believe By analysing the leadership of Xi Jinping the meaning of socialist market economy corruption the party state apparatus the reach of the party the mechanisms of repression taxation and public services and state society relations the book broadens the field of China studies as well as the fields of political economy comparative politics development and welfare state studies A new interpretation of the Chinese party state shows the advantage that derives from a comparative theorist looking at the Chinese system Tony Saich Harvard University This is an excellent book which asks important questions about China's future In a lively and persuasive manner the author vividly analyses key data in a comparative and theoretical manner Far and away the best introduction to how the CCP dictatorship works Edward Friedman University of Wisconsin Madison There is no lack of scholars and pundits abroad who tell us that dictatorship in China is for the greater good In a timely and engagingly written book Stein Ringen

systematically demolishes all the components of this claim Frank Dik ter University of Hong Kong Stein Ringen shows how the Chinese state has used both fear and material inducements to build a controlocracy of a size and complexity unprecedented in world history Perfect as a dictatorship but brutal destructive and wasteful The author's encyclopedic understanding of his topic is based on a mastery of relevant scholarship and is delivered in clear no nonsense prose that bows to no one Ideal as a textbook Perry Link University of California Riverside China is a complex country and there is a range of reasonable interpretations of its political system Professor Ringen's interpretation is different than my own but China watchers need to engage with his thought provoking and carefully argued assessment If current trends of repression intensify less pessimistic analysts will need to recognise that Ringen's analysis may have been prescient Daniel A Bell Tsinghua University Inspirational and trenchant Stein Ringen's book is a must read to understand China's politics economy ideology and social control and its adaptability and challenges under the CCP's rule especially in the 21st century Teng Biao Harvard Law School and New York University Stein Ringen's insights as a prominent political scientist enable a powerful examination of the Chinese state in a penetrating analysis that reaches strong conclusions which some will see as controversial The book is scholarly objective and free from ideological partiality or insider bias Whether one ultimately wishes to challenge or embrace his findings the book should be read Lina Song University of Nottingham Click on these links for more information Blog <https://thechinesestate.com> Facebook <https://www.facebook.com/steinringen7> about [China](#) Michael Dillon, 2010-07-30 China's transformation in the last few decades has been perhaps the most remarkable and most controversial development in modern history Barely a century removed from the struggling and out dated Qing Empire China has managed to reinvent itself on an unprecedented scale from Empire to Communist state to hybrid capitalist superpower Yet the full implications of China's rapid march to modernity are not widely understood particularly the effects of China's meteoric rise on the nation's many ethnic minorities China A Modern History is the definitive guide to this complex contemporary phenomenon Deng Xiaoping's 1980s policy of reform and opening which saw China enter the world market is only the most recent in a series of dramatic shifts that have transformed Chinese society over the past 150 years China A Modern History explores these contrasts in detail while also highlighting the enduring values which have informed Chinese identity for millennia Beginning with the waning years of the Qing dynasty Dillon compellingly recounts the 19th century period of national humiliation when China became a virtual colony of the Western powers and Japan Nationalists brought down the humbled Celestial Empire in 1911 ushering in a long period of discord from which Mao's Chinese Communist Party emerged bloodily triumphant in 1949 In a society still overwhelmingly agricultural Mao's colossal structural changes propelled China to superpower status but at an enormous human toll By Mao's death in 1976 programmes like the Great Leap Forward and the Cultural Revolution had once more brought China to the brink of total collapse It was at this moment that against all odds China recast itself yet again this time under the visionary leadership of Deng Xiaoping as a nation of

Socialism with Chinese characteristics Informed by both ancient and contemporary values China has entered the new century on a powerful footing commanding unprecedented financial and industrial resources prepared to meet the West on its own terms Michael Dillon's *China A Modern History* is essential reading for those interested in the past present and future course of one of the world's great nations Clearly and compellingly written this will stand as the best introduction to this spectacular and still unfinished story

China Hugo de Burgh, 2006 China is set to become the world's next superpower Should America celebrate or be afraid China Friend or Foe deals with vital questions Who are China's power players Will the Chinese economy increase trade or kill off our livelihoods How is China using its political and cultural influence Accessible and hard hitting China Friend or Foe goes beyond borders and stereotypes to explain what China means to America and the West at large

Far East and Australasia 2008 Europa Publications, Routledge Staff, 2007-11-15 A systematic survey of all the countries of East Asia South East Asia Australia New Zealand and the Pacific Islands Essential for anyone with a professional interest in the region Keeps up to date with current economic and political developments Part One General Survey Written by acknowledged authorities on the Pacific Rim this collection of essays forms an impartial overview of the area as a whole Topics include regional security issues human rights environmental issues recent economic trends and USA's relations with the Asia Pacific region Country Surveys Individual chapters on each country containing articles on geography history and the economy an economic and demographic survey of the latest available statistics on population agriculture industry finance trade transport tourism and education a directory of names addresses and contact numbers covering the constitution government legislature judiciary political organizations diplomatic representation religion the media finance trade industry tourism defence and education a select bibliography Regional Information Includes all major international organizations active in the region their aims activities publications and principal personnel a detailed survey of major commodities in Asia and the Pacific a directory of research institutes specializing in the region select bibliographies of books and periodicals covering the Far East and Australasia and an index of regional organizations

Revolution, Resistance, and Reform in Village China Edward Friedman, Paul G. Pickowicz, Mark Selden, 2005-01-01 Drawing on nearly 30 years of field and documentary research in rural North China this book explores the contested relationship between village and state since the 1960's The authors bring the countryside to life through personal and poignant accounts of villagers across three generations of social upheaval

Re-envisioning the Chinese Revolution Ching Kwan Lee, 2007 A comprehensive study of contemporary memories of China's revolutionary epoch from the time of Japanese imperialism through the Cultural Revolution This volume examines the memories of a range of social groups including disenfranchised workers and rural women who have often been neglected in scholarship

Creativity and Academic Activism Meaghan Morris, Mette Hjort, 2012-09-01 This work explores in detail how innovative academic activism can transform our everyday workplaces in contexts of considerable adversity Personal essays by prominent scholars provide

critical reflections on their institution building triumphs and setbacks across a range of cultural institutions Often adopting narrative approaches the contributors examine how effective programmes and activities are built in varying local and national contexts within a common global regime of university management policy Here they share experiences based on developing new undergraduate degrees setting up research centers and postgraduate schools editing field shaping book series and journals establishing international artist in residence programs and founding social activist networks This book also investigates the impact of managerialism marketization and globalization on university cultures asking what critical cultural scholarship can do in such increasingly adversarial conditions Experiments in Asian universities are emphasized as exemplary of what can or could be achieved in other contexts of globalized university policy Contributors include Tony Bennett Stephen Ching Kiu Chan Kuan Hsing Chen Douglas Crimp Dai Jinhua John Nguyet Erni Josephine Ho Koichi Iwabuchi Tejaswini Niranjana Wang Xiaoming and Audrey Yue **New Statesman** ,2005 **American Gardening** ,1892
