*When Buffalo Ran* George Bird Grinnell, 2018-08-14 *When Buffalo Ran* by George Bird Grinnell Seventy years ago when some of the events here recounted took place Indians were Indians and the plains were the plains indeed Those plains stretched out in limitless rolling swells of prairie until they met the blue sky that on every hand bent down to touch them In spring brightly green and spangled with wild flowers by midsummer this prairie had grown sere and yellow Clumps of dark green cottonwoods marked the courses of the infrequent streams for most of the year the only note of color in the landscape except the brilliant sky On the wide level river bottoms sheltered by the enclosing hills the Indians pitched their conical skin lodges and lived their simple lives If the camp were large the lodges stood in a wide circle but if only a few families were together they were scattered along the stream In the spring and early summer the rivers swollen by the melting snows were often deep and rapid but a little later they shrank to a few narrow trickles running over a bed of sand and sometimes the water sank wholly out of sight The animals of the prairie and the roots and berries that grew in the bottoms and on the uplands gave the people their chief sustenance In such surroundings the boy Wikis was born and grew up The people that he knew well were those of his own camp Once a year perhaps for a few weeks he saw the larger population of a great camp but for the most part half a dozen families of the tribe with the buffalo the deer the wolves and the smaller animals and birds were the companions with whom he lived and from whom he learned life's lessons We are delighted to publish this classic book as part of our extensive Classic Library collection Many of the books in our collection have been out of print for decades and therefore have not been accessible to the general public The aim of our publishing program is to facilitate rapid access to this vast reservoir of literature and our view is that this is a significant literary work which deserves to be brought back into print after many decades The contents of the vast majority of titles in the Classic Library have been scanned from the original works To ensure a high quality product each title has been meticulously hand curated by our staff Our philosophy has been guided by a desire to provide the reader with a book that is as close as possible to ownership of the original work We hope that you will enjoy this wonderful classic work and that for you it becomes an enriching experience **When Buffalo Ran;**

**When Buffalo Ran Free** Wendell B. Anderson, 2000      **The Delineation of the Day-signs in the Aztec Manuscripts** Thomas Talbot Waterman, 1916      *Grinnell* John Taliaferro, 2019-06-04 Winner National Outdoor Book Award History Biography Longlisted PEN Jacqueline Bograd Weld Award for Biography Before Rachel Carson there was George Bird Grinnell the man whose prophetic vision did nothing less than launch American conservation

George Bird Grinnell the son of a New York merchant saw a different future for a nation in the thrall of the Industrial Age With railroads scarring virgin lands and the formerly vast buffalo herds decimated the country faced a crossroads Could it pursue Manifest Destiny without destroying its natural bounty and beauty The alarm that Grinnell sounded would spark America's conservation movement Yet today his name has been forgotten an omission that John Taliaferro's commanding biography now sets right with historical care and narrative flair

Grinnell was born in Brooklyn in 1849 and grew up on the estate of ornithologist John James Audubon Upon graduation from Yale he dug for dinosaurs on the Great Plains with eminent paleontologist Othniel C Marsh an expedition that fanned his romantic notion of wilderness and taught him a graphic lesson in evolution and extinction Soon he joined George A Custer in the Black Hills helped to map Yellowstone and scaled the peaks and glaciers that through his labors would become Glacier National Park Along the way he became one of America's most respected ethnologists seasons spent among the Plains Indians produced numerous articles and books including his tour de force *The Cheyenne Indians Their History and Ways of Life* More than a chronicler of natural history and indigenous culture Grinnell became their tenacious advocate He turned the sportsmen's journal *Forest and Stream* into a bully pulpit for wildlife protection forest reserves and national parks In 1886 his distress over the loss of bird species prompted him to found the first Audubon Society Next he and Theodore Roosevelt founded the Boone and Crockett Club to promote fair chase of big game His influence among the rich and the patrician provided leverage for the first federal legislation to protect migratory birds a precedent that ultimately paved the way for the Endangered Species Act And in an era when too many white Americans regarded Native Americans as backwards Grinnell's cries for reform carried from the reservation through the halls of Congress all the way to the White House Drawing on forty thousand pages of Grinnell's correspondence and dozens of his diaries Taliaferro reveals a man whose deeds and high mindedness earned him a lustrous peerage from presidents to chiefs Audubon to Aldo Leopold John Muir to Gifford Pinchot Edward S Curtis to Edward H Harriman Throughout his long life Grinnell was bound by family and sustained by intimate friendships toggling between the East and the West As Taliaferro's enthralling portrait demonstrates it was this tension that wound Grinnell's nearly inexhaustible spring and honed his vision a vision that still guides the imperiled future of our national treasures
