[Research Handbook on Line Managers](#) Keith Townsend,Anna Bos-Nehles,Kaifeng Jiang,2022-11-11 This timely Research Handbook brings together 24 chapters with a wide range of different theoretical perspectives empirical research and innovative thought provoking ideas relating to an area of organisation and management that has been neglected for many decades line managers

**The Sage Handbook of Digital Labour** Ergin Bulut,Julie Yujie Chen,Rafael Grohmann,Kylie Jarrett,2025-12-17 The Sage Handbook of Digital Labour is a comprehensive exploration of the multifaceted and evolving concept of digital labour Originally coined in Marxist analyses to explain the exploitation of user data in the digital economy the term has since expanded to encompass a wide range of paid work influenced by digital technologies This includes traditional jobs transformed by platforms new roles emerging in today s digital society and cultural producers like influencers and online creators The handbook also addresses the material aspects of digital labour highlighting its dependence on traditional manufacturing and manual labour This volume brings together leading scholars from diverse disciplines to examine the intersections of labour and digital technologies It approaches digital labour as an interdisciplinary field of inquiry exploring the material and ideological conditions of work in contemporary society The handbook aims to chart the extensive territory of digital labour studies covering theoretical traditions key

concepts emblematic sites of production normative cultures and worker subjectivities It also showcases the spectrum of worker organizing repertoires and tactics across the world The handbook is organized into seven sections Section 1 highlights major theoretical traditions while Section 2 focuses on the material sites along production chains Sections 3 and 4 delve into key concepts and sites of production and Section 5 explores normative cultures and worker subjectivities Section 6 examines worker organizing tactics and Section 7 introduces research methods for scholars in the field The volume concludes with discussions on how digital labour studies can provide unique perspectives to imagine digital futures The Sage Handbook of Digital Labour is an essential resource for scholars practitioners and students seeking to understand the complexities of digital labour It provides a comprehensive and nuanced exploration of the field equipping readers to engage with the theoretical and practical aspects of digital labour in a rapidly changing world Part 1 Theoretical Traditions Part 2 Material Sites of Production Part 3 Key Concepts in Digital Labour Part 4 Emblematic Sites of Production Part 5 Normative Cultures and Worker Subjectivities Part 6 Worker Organizing Repertoires and Tactics Part 7 Research Methods in Digital Labour Studies

The Routledge Handbook of the Gig Economy Immanuel Ness, 2022-10-31 Research on the growth of the precarious economy is of significant interest as the economy increasingly becomes dependent on gig work However as platform and automated service work has grown there remains a chasm in understanding the key aspects of digital labour This handbook presents comprehensive theoretical empirical and historical accounts of the political economy of informal work from the late 20th century to the present It examines the rich and varied analysis and critique of the informalisation of work focusing on its most significant theories intellectual traditions and authors It highlights the political social cultural and developmental impact of the deterioration of employment in the Global North and Global South as well as the extreme threat posed to the planet by the growth of contingent work poverty and enduring and increasing inequalities produced and reproduced by the reformation of capitalism in the contemporary age of neoliberal capitalism The period from the 1980s to the present is marked by the expanded extraction of surplus value from workers through the creation of non standard jobs and the restructuring of work A central component of the restructuring of work is the extension of gig employment through the development of algorithmic platforms which direct labourers to perform discrete tasks This is a definitive collection representing the primary reference work contributing to our understanding of the subject The book is written and presented in a clear manner accessible to scholars and researchers of international political economy labour economics and sociology who are eager for new research examining this phenomenon as well as specialists in the field of labour relations Chapter 11 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license Funded by the University of Amsterdam

Willing's Press Guide, 2003 Coverage of publications outside the UK and in non English languages expands steadily until in 1991 it occupies enough of the Guide to require publication in parts Willing's Press Guide and Advertisers' Directory and
