**Legal Emblems and the Art of Law** Peter Goodrich, 2014 The emblem book was invented by the humanist lawyer Andrea Alciato in 1531 The preponderance of juridical and normative themes of images of rule and infraction of obedience and error in the emblem books is critical to their purpose and interest This book outlines the history of the emblem tradition as a juridical genre along with the concept of and training in obiter depicta in things seen along the way to judgment It argues that these books depict norms and abuses in classically derived forms that become the visual standards of governance Despite the plethora of vivid figures and virtual symbols that define and transmit law contemporary lawyers are not trained in the critical apprehension of the visible This book is the first to reconstruct the history of the emblem tradition evidencing the extent to which a gallery of images of law already exists and structuring how the public realm is displayed made present and viewed *The General Baptist repository, and Missionary observer [afterw.] The General Baptist magazine repository and Missionary observer [afterw.] The General Baptist magazine*, 1851
