arguments from leading film scholars Book jacket **Hearst's International** ,1916 *Re/constructing Elementary Science*  
Wolff-Michael Roth,Kenneth George Tobin,Steve Ritchie,2001 *Re Constructing Elementary Science* seeks to improve the way  
science is taught in the elementary school There are three main contradictions that make it difficult for teachers and  
students to engage in meaningful activities from which understandings result The central issues in this book are framed in  
terms of three dichotomies that lead to tensions arising from the dialectic of opposing aspects of teaching and learning First  
there is a tension between learning as an individual process cultural production and as a cultural process cultural  
reproduction Second there is a tension between science and technology applied science Finally there exists a tension  
between children s interaction with nature and their language for describing and explaining nature Exemplary case studies  
are featured that show the tremendous capabilities of elementary students to talk about technology and in the process to  
learn to talk science These case studies are couched in an ongoing professional dialogue among the authors and the  
requirements to make such exemplary science happen in other classrooms *The silver shield; an original comedy in three  
acts* Sydney Grundy,1898 *Records of a stormy life, by the author of 'Recommended to mercy', &c* Matilda Charlotte
