The German Polity Eric Langenbacher, 2022 This thoroughly revised and updated edition provides a comprehensive introduction to contemporary Germany, one of the world's foremost economic and political powers. During a series of profound crises over the last decade, including migration challenges, Brexit, and the COVID-19 pandemic, Germany has emerged as the undisputed leader of the European Union. One of the world's strongest economies, it exports goods, services, and ideas around the world. In foreign policy, it has taken on a more prominent role, especially with its pursuit of soft power. Yet, as adept as German policy making has been, the challenges have produced strains that reveal the limits of German influence. Moreover, after sixteen years in power, Chancellor Angela Merkel will retire, and new leadership will guide the country through the 2020s.
