This book is the proceedings volume of the 10th International Conference on Field Programmable Logic and its Applications  
FPL held August 27 30 2000 in Villach Austria which covered areas like reconfigurable logic RL reconfigurable computing RC  
and its applications and all other aspects Its subtitle The Roadmap to Reconfigurable Computing reminds us that we are  
currently witnessing the runaway of a breakthrough The annual FPL series is the eldest international conference in the world  
covering configware and all its aspects It was founded 1991 at Oxford University UK and is 2 years older than its two most  
important competitors usually taking place at Monterey and Napa FPL has been held at Oxford Vienna Prague Darmstadt

Courtois,N. Guillemot,G. Kamarinos,G. Stéhelin,2013-03-09 This is the third edition of the European Workshop on  
Microelectronics Education EWME A steady state regime has now been reached An international community of university  
teachers is constituted they exchange their experience and their pedagogical tools They discuss the best ways to transfer the

rapidly changing techniques to their students and to introduce them to the new physical and mathematical concepts and models for the innovative techniques devices circuits and design methods The number of abstracts submitted to EWME 2000 about one hundred enabled the scientific committee to proceed to a clear selection EWME is a European meeting Indeed authors from 20 different European countries contribute to this volume Nevertheless the participation of authors from Brazil Canada China New Zealand and USA shows that the workshop gradually attains an international dimension th The 20 century can be characterized as the century of electron The electron as an elementary particle was discovered by J J Thomson in 1897 and was rapidly used to transfer energy and information Thanks to electron universe and micro cosmos could be explored Electron became the omnipotent and omnipresent almost immaterial angel of our W orld This was made possible thanks to electronics and for the last 30 years to microelectronics Microelectronics not only modified and even radically transformed the industrial and the every day landscapes but it also led to the so called information revolution with which begins the 21 st century
