

# THE 7 HERMETIC PRINCIPLES

01

## The Principle of Mentalism

"The All is Mind; the Universe is Mental." It implies that everything that happens has its origin in the mind and reality itself is a mental construct.

02

## The Principle of Correspondence

"As above, so below; It suggests that there is harmony, agreement, and correspondence between different planes of existence: the physical, mental, and spiritual.

03

## The Principle of Vibration

"Nothing rests; everything moves; everything vibrates." It posits that everything in the universe is in constant motion and differences in manifestations of matter, energy, mind, and spirit result largely from varying rates of vibration.

04

## The Principle of Polarity

"Everything is dual; everything has poles; everything has its pair of opposites." It highlights the idea that opposites are identical in nature but different in degree, and that all paradoxes may be reconciled.

05

## The Principle of Rhythm

"Everything flows, out and in; everything has its tides; all things rise and fall." It signifies a rhythm to everything, a measurable motion between two poles, establishing a cycle.

06

## The Principle of Cause and Effect

"Every cause has its effect; every effect has its cause." It asserts that nothing happens by chance and everything happens according to law. There are many planes of causation, but nothing escapes the Law.

07

## The Principle of Gender

"Gender is in everything; everything has its masculine and feminine principles." It explains that gender manifests on all planes of existence—physical, mental, and spiritual—and these principles are always at work in creation and generation.
