Suburban Empire Lauren Hirshberg, 2022-02-15 Suburban Empire takes readers to the US missile base at Kwajalein Atoll in the Marshall Islands at the matrix of postwar US imperial expansion the Cold War nuclear arms race and the tide of anti colonial struggles rippling across the world Hirshberg shows that the displacement of indigenous Marshallese within Kwajalein Atoll mirrors the segregation and spatial politics of the mainland US as local and global iterations of US empire took hold Tracing how Marshall Islanders navigated US military control over their lands Suburban Empire reveals that Cold War era suburbanization was perfectly congruent with US colonization military testing and nuclear fallout The structures of suburban segregation cloaked the destructive history of control and militarism under a veil of small town innocence

Forgotten Crimes Susanne E. Evans, 2023-12-21 Between 1939 and 1945 the Nazi regime systematically murdered hundreds of thousands of children and adults with disabilities as part of its euthanasia programs These programs were designed to eliminate all persons with disabilities who according to Nazi ideology threatened the health and purity of the German race *Forgotten Crimes* explores the development and workings of this nightmarish process a relatively neglected aspect of the Holocaust Suzanne Evans s account draws on the rich

historical record as well as scores of exclusive interviews with disabled Holocaust survivors It begins with a description of the Nazis Children s Killing Program in which tens of thousands of children with mental and physical disabilities were murdered by their physicians usually by starvation or lethal injection The book goes on to recount the T4 euthanasia program in which adults with disabilities were disposed of in six official centers and the development of the Sterilization Law that allowed the forced sterilization of at least a half million young adults with disabilities Ms Evans provides portraits of the perpetrators and accomplices of the killing programs and investigates the curious role of Switzerland s rarely discussed exclusionary immigration and racially eugenic policies Finally *Forgotten Crimes* notes the inescapable implications of these Nazi medical practices for our present day controversies over eugenics euthanasia genetic engineering medical experimentation and rationed health care
