My Universe-A Transcendent Reality Alex Vary, 2011-11-21 A theme throughout My Universe is that our consciousness exists simultaneously in transcendent and material domains The gift and power of transcendent consciousness is that we apparently share it with extraterrestrial beings everywhere in the cosmos Author Vary describes sub quantum hyperspace phenomena that enable and mediate our communion with extraterrestrials These reflections prompted Vary to muse that in this sense we are all extraterrestrials Our consciousness transcends the material and elevates and

entwines our spirits My Universe A Transcendent Reality is a literary work with profound technological and teleological overtones Vary s prophetic prose poesy essays combine physics metaphysics cosmology theology and philosophy He offers extraordinary radical ideas that can expand our dominion over nature and promote self realization Vary s book differs from others of its genera because it presents a rational basis for understanding the transcendent reality that influences our lives and by which we can enhance our interpersonal relations and infinite potentials My Universe describes the foundation for perceiving a transcendent reality with quantum phenomena which we may experimentally observe as evidence of the intertwining of the transcendent and material From this foundation we may realize transcendent communications with extraterrestrial beings This is because there is a bond between transcendent reality and material reality between transcendent human consciousness and extraterrestrial reality which are seemingly separated only by a tenuous hyperspace interface that may be traversed by advanced human techniques Describes paradigms that enable and implement our transcendent consciousness and our relation to and contact with extraterrestrial worlds and beings Gives entertaining provocative clarification of great ideas in cosmology philosophy theology sociology evolution metaphysics and sub quantum physics Speaks to all cultures innovators writers poets artists scientists explains the nature of our world so that we may better apply our infinite potentials Promotes broadening of one s spiritual self realization challenging revolutionary transformational and inspiring needed in this crucial juncture of time Suggest transcendent control of nature through sub quantum phenomena and harnessing cold fusion power and changing lead to gold actually metaphorically Proclaims people may aspire to a personal paradise because no matter how bad life on Earth becomes everyone may prepare for access to a transcendent paradise

Introductory Readings in Philosophy Avrum Stroll,Richard Henry Popkin,1972 **Readings in Educational Psychology** Robert A. Dentler,Bernard J. Shapiro,1976 **Truth Seeker** ,1925 *Problems from Philosophy* James Rachels,2005 This book is an introduction to some of the main problems of philosophy God mind freedom knowledge and ethics The chapters may be read independently of one another But when read in order they tell a more or less continuous story We begin with some reflections about the legacy of Socrates and then go on to the existence of God which is perhaps the most basic philosophical question of all because our answer to it influences how we will answer all the others This leads naturally to a discussion of death and the soul and then to more modern ideas about the nature of persons The later chapters are about whether it is possible for us to have objective knowledge in either science or ethics James Rachels from the Preface *Problems from Philosophy* and *The Truth About the World* Basic Readings in Philosophy are at once James Rachels newest contributions to philosophy and his last In these two books Rachels found a culminating expression for his love of philosophy
