Geary, 1999 Written for experienced programmers who need detailed explanations of the JFC libraries this volume covers all aspects of the swing framework Swing is the long awaited successor to the AWT s heavyweight components Football: A Love Story Emory Hunt, 2015-07 Over 100 interviews from current former coaches players personnel execs analyst and entertainers on their love for the game of football Bowled Over Michael Oriard, 2009-11-01 In this compellingly argued and deeply personal book respected sports historian Michael Oriard who was himself a former second team All American at Notre Dame explores a wide range of trends that have changed the face of big time college football and transformed the role of the student athlete Oriard considers such issues as the politicization of football in the 1960s and the implications of the integration of college football The heart of the book examines a handful of decisions by the NCAA in the early seventies to make freshmen eligible to play to lower admission standards and most critically to replace four year athletic scholarships with one year renewable

scholarships that helped transform student athletes into athlete students and turned the college game into a virtual farm league for professional football Oriard then traces the subsequent history of the sport as it has tried to grapple with the fundamental contradiction of college football as both extracurricular activity and multi billion dollar mass entertainment The relentless necessity to pursue revenue Oriard argues undermines attempts to maintain academic standards and it fosters a football culture in which athletes are both excessively entitled and exploited As a former college football player Oriard brings a unique perspective to his topic and his sympathies are always with the players and for the game This original and compelling study will interest everyone concerned about the future of college football
