The Liturgy of Life Ricky Manalo, 2014-12-30 Everyday worship practices from praying the rosary to moments of recognizing the beauty of God's creation from being moved by the power of music to praying Vespers on an iPad not only take place at different locations and during different days of the week but also dynamically interact with one another The Liturgy of Life examines the interrelationship between the practice of Sunday Eucharist and the many nonofficial worship practices that mark the everyday lives of Christians who continually negotiate the boundaries of official teaching on liturgy Drawing on the writings of theologians and sociologists of lived religion and data from an ethnographic research project this timely work stretches the contextual horizon of liturgical scholarship and presents a provocative and dynamic paradigm of Christian worship for the twenty first century

Sacramental Guidelines Kenan B. Osborne, 1995 Sacramental Guidelines is an indispensable tool for religious education teachers Parents and pastors will appreciate its straightforward overview of the sacraments and how they function in our faith as the heart of our Catholic belief and the soul of our spirituality

Essays and Questions on Catholic Theology Albert Ayers Forrester, 2003-07-29 The Church teaches that man as the image of God was created for holiness Holiness is not then reserved for the few but rather it is the destiny of all The message is consequently one of hope that change is possible that growth in holiness is possible We do not have to continue in a downward spiral of brokenness We are called to be liberated from sin and God has provided us with the power to change This power can be found in the free gift of grace given by the Holy Spirit through His Church and her Sacraments In essence this book is concerned with transformational theology It is about how the grace of God expressed through the Sacraments is effective and able to transform us From the beginning it should be explained that there are two important philosophical principles at work within the sacramental economy of the Church The first is operatio sequitur esse action follows upon being Causes have effects and in this case the cause is God's transforming love and the effect is the change within us brought about by this love We are changed by the Cause and we become like the Cause Therefore we act in a manner consistent with our new nature But we must be open to change This leads to the second principle which is that which is received is received according to the mode of the receiver There is an obstacle that can prevent the grace of God from being effective in our lives The obstacle is our will As the image of God we are given freedom the ultimate freedom the freedom to accept or reject God The mode of the receiver must be open to the grace of God by faith Our will must be surrendered to His will or we will remain unchanged The choice is ours
