Astral Planes and Your Other Realities Valentin Matcas,2016-04-20 Can you visit other planes and realities But can you live other lives there in your other planes and realities People can always tell beautiful paranormal stories or who knows you might have already been there yourself saw them felt them and now this is why you search through all higher knowledge to learn more about your experience But was it real Are your other worlds real as real as this world All realities are real in a rather trivial manner And even more all realities are objectively real but only as long as you are there Since existence defines them similarly determining closely your continuous firsthand experience Furthermore many realities are part of life part of this life that we have here in this world And now if you have found your way into these other planes of existence in a conscious manner it might have been a natural process altogether and not exactly a random experience It had a purpose while you might have missed fulfilling it and now it is certainly meaningful to know everything that you can ever discover Yet if you have never had a paranormal experience yourself and now you simply wonder what is going there are very powerful drugs that you take regularly with your food drinks drugs and medicine meant to hold you forcefully in this world And now this is exactly what you do you remain here nicely for life And it happens with everybody or almost depending on where you live or depending on your development and genetic background There is a difference between astral planes the natural human environment and your other realities Because existence comes in three distinct levels used to distinguish between your higher and lower realities While you can understand all your realities through your mind reasoning awareness and imagination since even this world makes sense to you only as part of your reasoning awareness mind and imagination and not

exactly directly as anyone may expect And this is the case because there is no other way to experience anything in life and in the wider world but through your perception reasoning and understanding and through the multitude of your selves intelligences and identities present throughout all your realities And this is why you cannot understand astral planes along with your other realities if you do not understand your cognitive system first along with your intelligences selves memories and expectations since everything is interconnected This interesting entanglement of meanings and constraints causes the ultimate truth of your wider existence to remain hidden beneath strong consensual conditions and within tedious loops of reasoning remaining inaccessible in this manner to the ignorant and to the unconditional follower of common ideologies while allowing the truth only to those living life freely consciously and in full awareness and understanding of the wider world through the fulfillment of all natural higher level needs and meanings Because these are your developmental opportunities that you experience in each one of your worlds and realities while following the fulfillment of your natural intelligent human needs for higher experience and higher development This book studies you and your life and existence throughout all your realities that you employ encounter inhabit create and co create throughout your wider existence helping you understand who you are through all your selves and intelligences as you live your life throughout all your worlds and realities If you seek to gain wider understanding of who you truly are this book is for you [ECGBL2013-Proceedings of the 6th European Conference on Games Based Learning](#) Patrick Felicia,2012 *How Do We Look?* Fatimah Tobing Rony,2021-10-18 In *How Do We Look* Fatimah Tobing Rony draws on transnational images of Indonesian women as a way to theorize what she calls visual biopolitics the ways visual representation determines which lives are made to matter more than others Rony outlines the mechanisms of visual biopolitics by examining Paul Gauguin s 1893 portrait of Annah la Javanaise a trafficked thirteen year old girl found wandering the streets of Paris as well as US ethnographic and documentary films In each instance the figure of the Indonesian woman is inextricably tied to discourses of primitivism savagery colonialism exoticism and genocide Rony also focuses on acts of resistance to visual biopolitics in film writing and photography These works such as Rachmi Diyah Larasati s *The Dance that Makes You Vanish* Vincent Monnikendam s *Mother Dao* 1995 and the collaborative films of Nia Dinata challenge the naturalized methods of seeing that justify exploitation dehumanization and early death of people of color By theorizing the mechanisms of visual biopolitics Rony elucidates both its violence and its vulnerability **Harper's Monthly Magazine** ,1902 [Reports](#) ,1874 **Public Opinion** ,1920 **Proceedings** Philadelphia County Medical Society,1897 **Some Experiences of an Irish R.M.** Edith CEnone Somerville,1900 **The Pennsylvania School Journal** Thomas Henry Burrowes,James Pyle Wickersham,Elnathan Elisha Higbee,David Jewett Waller,Nathan C.
