Baron,2003 Organizational Behavior The Ultimate Reality Show Three years ago when the previous edition of this book was published Enron and WorldCom were successful and highly acclaimed companies involvement in a dot com was an assured path to riches and September 11 was just a date on the calendar Today that's all changed In a very short time it's become a different world especially the business world Companies that once moved from bricks to clicks today are returning to bricks but are keeping the clicks as well Many organizations that downsized in a sagging economy subsequently rehired employees only to downsize once more And workplaces that used to be considered safe havens from the uncertainties of a sometimes evil world today are considered far more vulnerable than ever Because the field of OB is constantly adjusting to reality we think of it and this book as the ultimate reality show As in the TV show Survivor only the most adaptable individuals and teams in the workplace can be expected to make it to tomorrow And as in the TV show Big Brother relationships with other people also hold the key to success at work Finally just as winners in these television programs stand to receive large sums of money and are likely to enjoy the experience of playing the game so too do employers and employees benefit financially and personally when they have mastered OB Unlike these so called reality shows with their carefully scripted scenarios and meticulously chosen casts however behavior in organizations is reality Its effects are ongoing and profound And this is why we consider it to be the ultimate in reality and why we put so much care into preparing this book Topic Coverage Old and New You would not have a serious OB book without paying attention to Weber's concept of bureaucracy Maslow's need hierarchy theory and dozens of other classic theories and studies Such works are to be found on these pages Competing for space are an equal number of more contemporary approaches to OB that also have received our attention Consider for example just a few of the many new topics covered in this book Ethics audits corporate social responsibility e training Chief Knowledge Officer successful intelligence emoticons organizational compassion religious intolerance cyber venting and much more PM Network ,1997 **Connections** ,2008 From the PFP website The Consortium is providing a family of publications covering the full range of security studies to an international standard of excellence serving the military civilian and academic needs of the Consortium membership Currently this family includes Quarterly journal Athena papers Bulletins Information papers **Black Enterprise** ,2006 Multicultural Diversity
