Swamp Stomp:

Challenging History Leah Worthington, Rachel Clare Donaldson, John W. White, 2021-07-22 A collection of essays that examine how the history of slavery and race in the United States has been interpreted and inserted at public historic sites. For decades racism and social inequity have stayed at the center of the national conversation in the United States sustaining the debate around public historic places and monuments and what they represent. These conversations are a reminder of the crucial role that public history professionals play in engaging public audiences on subjects of race and slavery. This difficult history has often remained un or underexplored in our public discourse hidden from view by the tourism industry or even by public history professionals themselves as they created historic sites museums and public squares based on white centric interpretations of history and heritage. *Challenging History* through a collection of essays by a diverse group of scholars and practitioners examines how difficult histories specifically those of slavery and race in the United States are being interpreted and inserted at public history sites and in public history work. Several essays explore the successes and challenges of recent projects while others discuss gaps that public historians can fill at sites where Black history took place but is absent in the interpretation. Through case studies the contributors reveal the entrenched false narratives that public history workers are countering in established public history spaces and the work they are conducting to reorient our collective understanding of the past. History practitioners help the public better understand the world. Their choices help to shape ideas about heritage and historical remembrances and can reform even transform worldviews through more inclusive and ethically narrated histories. *Challenging History* invites public historians to consider the ethical implications of the narratives they choose to share and makes the case that an inclusive honest and complete portrayal of the past has the potential to reshape collective memory and ideas about the meaning of American history and citizenship. *Run Derek! Run!* Derek Joseph

Wakefield, 2012-12-12 My name is Derek I used to feel like I was just another person in the world Living life day by day following my routine and letting fate take me where I was supposed to go I decided to change that by running I would be the one making my own path and challenging myself with new goals and new adventures I started feeling much better and gained a lot of confidence so I set the goal of running 25 races in 2012 and writing a book about my experiences Each chapter describes how I was feeling some of the events and how my attitude changed throughout the year I used to be shy and unsure of myself about running and going through my daily routine Now I get out and take on the world I m the guy you ll find running next to you encouraging you to keep going singing doing back flips and getting the crowd riled up The book mentions 15 stories about my struggles and triumphs summing everything up in the final chapter Running is how I began to find confidence and motivation This book was written to help you find your passion in life and push you to live the best life you can
