The Gliders:

The Gliders Alan Lloyd,1982 **History of the Glider Pilot Regiment** Claude Smith,2014-01-09 The untold story of this tiny little known British Army regiment and the daring men who piloted engineless aircraft to WWII s major battlefields The Glider Pilot Regiment having been raised as the first element of the new Army Air Corps in 1942 and disbanded in 1957 can probably claim the dubious distinction of having been the smallest and shortest lived regiment ever to form part of the British Army Nevertheless in those few years the regiment gained as much distinction as it has taken other units hundreds of years to achieve Yet strangely enough the story of these heroic men who piloted their flimsy gliders to most of the important battlefields of the Second World War has never before been told It is indeed a remarkable story and no one is better qualified to tell it than Claude Smith who himself served with the regiment and took part in the invasion of Normandy on D Day June 6 1944 and later in the ill fated landing at Arnhem where he was taken prisoner Smith tells the story of these supremely brave men factually and dispassionately but it is impossible to read this book without being moved by their courage As General Sir John Hackett says in his foreword Those who went to battle in gliders and above all those who got them there the Glider Pilots deserve our enduring esteem Includes maps and illustrations **World War II Glider Pilots** ,1991 **The Cruel Slaughter of Adolf Hitler** karsten friedrich,2011-02 World War II World War II or the Second World War was a global military conflict lasting from 1939 to 1945 which involved most of the world s nations including all of the great powers eventually forming two opposing military alliances the Allies and the Axis It was the most widespread war in history with more than 100 million military personnel mobilised In a state of total war the major participants placed their entire economic industrial and scientific capabilities at the service of the war effort erasing the distinction between civilian and military resources Marked by significant events involving the mass death of civilians including the Holocaust and the only use of nuclear weapons in warfare it was the deadliest conflict in human history resulting in 50 million to over 70 million fatalities
