Life Without Plastic Jay Sinha, Chantal Plamondon, 2017-12-12 After the birth of their son Jay Sinha and Chantal Plamondon set out on a journey to eliminate plastic baby bottles as the Canadian government banned BPA. When they found it was difficult to procure glass baby bottles, Jay and Chantal made it their mission to not only find glass and metal replacements for plastic but to make those products accessible to the public as well. Printed on wood-free FSC sustainable certified paper and with BPA-free ink, *Life Without Plastic* strives to create more awareness on the issue of BPA polycarbonates and other single-use plastics and provides readers with safe, reusable, and affordable alternatives. While plastic has its uses in technology, medical, and some products around the home, certain single-use plastics release chemicals when put in contact with food and water. These disposable plastics are also found in produce and cleaning products. Jay and Chantal show readers how to analyze their personal plastic use, find alternatives, and create easy replacements in this step-by-step guide. Get your family healthier, spread consciousness, and create positive reflection on you for helping the environment by taking action.

Climate Change Carla Mooney, 2024-08-01 Earth's climate naturally changes, but since the 1800s, global temperatures have risen at an unprecedented rate. Many scientists have attributed this climate change to the increased use of fossil fuels. *Climate Change* examines how human activities have contributed to global warming and the effects climate change has on the planet. It also looks at steps being taken to mitigate climate change, ways in which activists have taken action to reduce greenhouse gas emissions, and how everyday people can get involved. Features include a glossary, references, websites, source notes, and an index. Aligned to Common Core Standards and correlated to state standards.
