Truth Art:

Deconstruction and the Work of Art Martta Heikkilä, 2021-07-29 The contemporary idea of the work of art is paradoxically both widely used and often unexamined Therefore we must re evaluate the concept before we can understand what the deconstruction of aesthetics means for thinkers like Jacques Derrida Jean Luc Nancy and Philippe Lacoue Labarthe By examining their analyses of works of visual art and contextualizing their thinking on the matter Martta Heikkil asserts that the implications of the work of art art and the aesthetic apply not only to philosophical questions but also to a broader area Instead of the totality represented by the historical concept of Art poststructuralist thinkers introduce the idea of the radical multiplicity of art and its works From this notion arises the fundamental issue in Derrida and the poststructuralist tradition how can we speak philosophically of art which always exists as singular instances as works In *Deconstruction and the Work of Art Visual Arts and Their Critique in Contemporary French Thought* Heikkil shows that the deconstructionist notions of art are still influential in the discourses of contemporary art in which artworks proliferate and the concept of work is open ended and expanding This book offers an introduction to the deconstructionist theory of art and brings new perspectives to the complex undecidable relation between philosophy and art

Handbook of Inaesthetics Alain Badiou, 2004-10-28 Didacticism romanticism and classicism are the possible schemata for the knotting of art and philosophy the third term in this knot being the education of subjects youth in particular What characterizes the century that has just come to a close is that while it underwent the saturation of these three schemata it failed to introduce a new one Today this predicament tends to produce a kind of unknotting of terms a desperate dis relation between art and philosophy together with the pure and simple collapse of what circulated between them the theme of education Whence the thesis of which this book is nothing but a series of variations faced with such a situation of saturation and closure we must attempt to propose a new schema a fourth type of knot between philosophy and art Among these inaesthetic variations the reader will encounter a sustained debate with contemporary philosophical uses of the poem bold articulations of the specificity and prospects of theater cinema and dance along with subtle and provocative readings of Fernando Pessoa St phane Mallarm and Samuel Beckett
