Walking Still:

A Walk Beside Me Deann Hummel,2014-02-13 Deann and her husband George were making a life for themselves in their native Colorado working hard to make ends meet and relishing the joys of having two children But one of them three year old Luke was getting around slowly and still not walking When they learned that he had Duchene muscular dystrophy their lives were changed forever Doctors told the couple that their son would live until his late teens or early twenties and while the news was devastating their prayers to the Lord and relationship with God helped them enjoy every single moment they had together as a family In this memoir Deann celebrates her son who touched so many lives in a short period of time He always had a smile on his face and he never let obstacles get in his way Through his actions he inspired everyone around him to live out loud Luke always gave a helping hand and his purpose in life was to share the love in his heart His life will inspire you to overcome obstacles and recognize the importance of cherishing the ones you love **The Last Great Walk** Wayne

Curtis,2014-09-09 In 1909 Edward Payson Weston walked from New York to San Francisco covering around 40 miles a day and greeted by wildly cheering audiences in every city The New York Times called it the first bona fide walk across the American continent and eagerly chronicled a journey in which Weston was beset by fatigue mosquitos vicious headwinds and brutal heat He was 70 years old Using the framework of Weston s fascinating and surprising story journalist Wayne Curtis investigates exactly what we lost when we turned away from foot travel and what we could potentially regain with America s new embrace of pedestrianism From how our brains and legs evolved to accommodate our ancient traveling needs to the way that American cities have been designed to cater to cars and discourage pedestrians Curtis guides readers through an engaging intelligent exploration of how something as simple as the way we get from one place to another continues to shape our health our environment and even our national identity Not walking he argues may be one of the most radical things humans have ever done **Supreme Court of the State of New York , THE COMPLETE WORKS OF ÉMILE ZOLA**
