War After The War:

Ethics Beyond War's End Eric Patterson, 2012-03-02 The wars in Afghanistan and Iraq have focused new attention on a perennial problem how to end wars well What ethical considerations should guide war's settlement and its aftermath In cases of protracted conflicts recurring war failed or failing states or genocide and war crimes is there a framework for establishing an enduring peace that is pragmatic and moral Ethics Beyond War's End provides answers to these questions from the just war tradition Just war thinking engages the difficult decisions of going to war and how war is fought But from this point forward just war theory must also take into account what happens after war ends and the critical issues that follow establishing an enduring order employing political forms of justice and cultivating collective forms of conciliation Top thinkers in the field including Michael Walzer Jean Bethke Elshtain James Turner Johnson and Brian Orend offer powerful contributions to our understanding of the vital issues associated with late and post conflict in tough real world scenarios that range from the US Civil War to contemporary quagmires in Afghanistan the Middle East and the Congo

Just Peace After Conflict Carsten Stahn, Jens Iverson, 2020-09-05 The interplay between peace and justice plays an important role in any contemporary conflict Peace can be described in a variety of ways as being negative or positive liberal or democratic But what is it that makes a peace just This book draws together leading scholars to study this concept of a just peace analysing different elements of the transition from conflict to peace The volume covers six core themes conceptual approaches towards just peace macro principles the nexus to security and stability protection of persons and public goods rule of law and economic reform and accountability Contributions engage with understudied issues such as the pros and cons of robust UN mandates the link between environmental protection and indigenous peoples the treatment of illegal settlements the feasibility of vetting practices and the protection of labour rights in post conflict economies Overall the book puts forward a case that just peace requires not only negotiation agreement and compromise but contextual understandings of law multiple dimensions of justice and strategies of prevention This is an open access title available under the terms of a CC BY NC ND 4.0 International licence It is offered as a free PDF download from OUP and selected open access locations

Our War Too Margaret Paton-Walsh, 2002 In the late 1930s a number of American women especially those allied with various peace and isolationist groups protested against the nation's entry into World War II While their story is fairly well known Margaret Paton Walsh reveals a far less familiar story of women who fervently felt that American intervention was absolutely necessary Paton Walsh recounts how the United States became involved in the war but does so through the eyes of American women who faced it as a necessary evil Covering the period between 1935 and 1941 she examines how these women functioned as political actors even though they were excluded from positions of power through activism in women's organizations informal women's networks and even male dominated lobbying groups In the Great Debate over whether America should enter the war some women favored aid to the Allies not because they hoped for war but because they hoped aid would forestall more

direct U S involvement but also because they believed war was preferable to a Nazi victory Paton Walsh shows that this activism involved some of the most prominent women of their day Elizabeth Cutter Morrow whose son in law Charles Lindbergh was an isolationist spokesman supported the revision of the Neutrality Acts to allow the sale of arms to the Allies and expressed her support in a national radio broadcast Soon other women joined this debate Esther Brunauer of the AAUW journalist Dorothy Thompson and organizations like the League of Women Voters and National Women s Trade Union League broke from the pacifist tradition to advocate American aid for the Allied cause Focusing on the conflict in Europe Paton Walsh shows how these women grasped the implications of the Lend Lease program for America s entry into the war but supported it nevertheless By late 1941 the Women s Division of the Fight for Freedom Committee had been established no longer merely advocating aid to Britain to keep American boys out of battle this organization supported direct American involvement in the war as a means of stopping Nazi oppression While most historians have focused on women s pacifism Paton Walsh connects women more directly to world events and shows how those interventionists reformulated maternalist ideas to justify and explain their beliefs *Our War Too* is a story of American women trying to reconcile the irreconcilable to preserve both their principles and their peace It expands our understanding of women as political actors and thinkers about foreign policy as it sheds new light on American public opinion over the build up to the war *World's Work* ,1915
