*Guerrilla Warfare Tactics In Urban Environments* Major Patrick D. Marques,2014-08-15 Current Special Forces doctrine is very limited concerning the conduct of guerrilla warfare combat operations in urban environments The focus of the current doctrine is on conducting combat operations in rural environments The material available on urban environments is defined in broad terms primarily focused on the larger picture of unconventional warfare Some considerations and characteristics of urban tactical operations are addressed but are so general they could be applied to a conventional infantry unit as easily as to a guerrilla force Traditionally Special Forces guerrilla warfare doctrine has focused on its conduct in a rural environment as historically most guerrilla movements have formed operated and been supported outside of the cities Increasing world urbanization is driving the center of gravity of the resistance the populace and their will to resist into urban settings As populations have gravitated to the cities on every continent the ability to prosecute a successful guerrilla war has often depended on the ability to conduct combat operations in these environments Predominantly the aspects of unconventional warfare that were executed in urban settings were those such as intelligence activities recruiting sabotage or subversion Guerrilla warfare combat operations were done in urban environments only when absolutely necessary **Counter Insurgency Manual** Leroy Thompson,2002-08-01 World renowned expert in the fields of counter terrorism hostage rescue and VIP protection Leroy Thompson has produced a comprehensive guide to counter insurgency His experience both in the field and in training showcase the latest methods and technologies available and this fully illustrated book reveals many of the secrets of his trade *Outsourced Empire* Andrew Thomson,2018-06-20 There has been a shift in the way that we

understand the forces behind imperialism In this book Andrew Thomson re evaluates the history of US imperialism from the Cold War to today by looking at the influence of paramilitary actors Thomson reveals how these agents are central to US imperialism from the Guatemalan coup to the Bay of Pigs from Syrian rebel factions to the Soviet Afghan War bringing these narratives together to reveal the evolution of paramilitary insurgencies across the globe Militias mercenaries and private companies PMCs have formed a central part of the strategies designed to influence political and economic conditions abroad oriented towards the US s Empire Drawing on declassified documents including US training manuals CIA communiqués and the National Security Archive Outsourced Empire reveals new evidence that helps us understand these institutions and their collective role in maintaining global order

**Soviet Eastern Policy and Turkey, 1920-1991** Bulent Gokay,2006-11-22 This is an impressive work that traces the relationship between the Soviet Union and Turkey on the one hand and the Soviet Union and the Turkish Communist Party on the other from the consolidation of the communist regime in Moscow until its fall The book considers how Soviet Eastern Policy was formed how it changed over time what the Soviet leaders hoped to gain in Turkey and what impact Soviet policy had on the development of the Turkish communist movement It is a valuable resource for students and scholars with an interest in Russian and Soviet politics and international relations

From Siege to Surgical: Major William T. James Jr.,2015-11-06 This study investigates what effect the evolution of urban combat from World War II to the present has had on current urban combat doctrine Urban combat operations have played a pivotal role in the conflicts of the twentieth century and will continue to be a crucial part of future U S power projection operations It is imperative that lessons learned from previous urban combat operations be studied for applicability to current urban combat doctrine The study analyzes the urban battles of Aachen Manila Seoul Hue JUST CAUSE and Mogadishu to identify salient lessons for conducting successful offensive urban combat operations then reviews current U S Army urban combat doctrine The study then evaluates current doctrine using identified salient lessons to determine their effect The study finds that the primary impacts of previous urban combat operations on current doctrine are that doctrine now embraces the idea of varied conditions for urban combat and validates the concept of fighting as a combined arms team in a built up area The study further finds that FM 90 10 Military Operations on Urban Terrain is obsolete and that key procurement decisions have left U S forces without critical weapons that have proven decisive in urban combat
