Speech Recognition Claudio Becchetti,Lucio Prina Ricotti,1999-05-04 The capabilities of Automatic Speech Recognition are expanding quickly and this practical book helps engineers take advantage of the technology immediately featuring C code for implementing ASR algorithms a process for creating an interface quickly and methods for testing and developing new systems   *Intelligent Systems* Chiranji Lal Chowdhary,2019-12-06 This volume helps to fill the gap between data analytics image processing and soft computing practices Soft computing methods are used to focus on data analytics and image processing to develop good intelligent systems To this end readers of this volume will find quality research that presents the current trends advanced methods and hybridized techniques relating to data analytics and intelligent systems The book also features case studies related to medical diagnosis with the use of image processing and soft computing algorithms in particular models Providing extensive coverage of biometric systems soft computing image processing artificial intelligence and data analytics the chapter authors discuss the latest research issues present solutions to research problems and look at comparative analysis with earlier results Topics include some of the most important challenges and discoveries in intelligent systems today such as computer vision concepts and image identification data analysis and computational paradigms deep learning techniques face and speaker recognition systems and more   **Machine Learning for Human Motion Analysis: Theory and Practice** Wang, Liang,Cheng, Li,Zhao, Guoying,2009-12-31 This book highlights the development of robust and effective vision based motion understanding systems addressing specific vision applications such as surveillance sport event analysis healthcare video conferencing and motion video indexing and retrieval Provided by publisher   *Information Systems for Indian Languages* Chandan Singh,Gurpreet Singh Lehal,Jyotsna Sengupta,Dharam Veer Sharma,Vishal Goyal,2011-02-11 This book constitutes the refereed proceedings of the International Conference on Information Systems for Indian Languages ICISIL 2011 held in Patiala India in March 2011 The 63 revised papers presented were carefully reviewed and selected from 126 paper submissions full papers as well as poster papers and 25 demo submissions The papers address all current aspects on localization e governance Web content accessibility search engine and information retrieval systems online and offline OCR handwriting recognition machine translation and transliteration and text to speech and speech recognition all with a particular focus on Indic scripts and languages   **Discriminative Learning for Speech Recognition** Xiadong He,Li Deng,2008-08-08 In this book we introduce the background and mainstream methods of probabilistic modeling and discriminative parameter optimization for speech recognition The specific models treated in depth include the widely used exponential family distributions and the hidden Markov model A detailed study is presented on unifying the common objective functions for discriminative learning in speech recognition namely maximum mutual information MMI minimum classification error and minimum phone word error The unification is presented with rigorous mathematical analysis in a common rational function form This common form enables the use of the growth transformation or

extended Baum Welch optimization framework in discriminative learning of model parameters In addition to all the necessary introduction of the background and tutorial material on the subject we also included technical details on the derivation of the parameter optimization formulas for exponential family distributions discrete hidden Markov models HMMs and continuous density HMMs in discriminative learning Selected experimental results obtained by the authors in firsthand are presented to show that discriminative learning can lead to superior speech recognition performance over conventional parameter learning Details on major algorithmic implementation issues with practical significance are provided to enable the practitioners to directly reproduce the theory in the earlier part of the book into engineering practice Table of Contents Introduction and Background Statistical Speech Recognition A Tutorial Discriminative Learning A Unified Objective Function Discriminative Learning Algorithm for Exponential Family Distributions Discriminative Learning Algorithm for Hidden Markov Model Practical Implementation of Discriminative Learning Selected Experimental Results Epilogue Major Symbols Used in the Book and Their Descriptions Mathematical Notation Bibliography **Proceedings of the Trends in Electronics Conference** ,2001 **Theory and Applications of Time Series Analysis** Olga Valenzuela,Fernando Rojas,Héctor Pomares,Ignacio Rojas,2019-10-18 This book presents selected peer reviewed contributions from the International Conference on Time Series and Forecasting ITISE 2018 held in Granada Spain on September 19 21 2018 The first three parts of the book focus on the theory of time series analysis and forecasting and discuss statistical methods modern computational intelligence methodologies econometric models financial forecasting and risk analysis In turn the last three parts are dedicated to applied topics and include papers on time series analysis in the earth sciences energy time series forecasting and time series analysis and prediction in other real world problems The book offers readers valuable insights into the different aspects of time series analysis and forecasting allowing them to benefit both from its sophisticated and powerful theory and from its practical applications which address real world problems in a range of disciplines The ITISE conference series provides a valuable forum for scientists engineers educators and students to discuss the latest advances and implementations in the field of time series analysis and forecasting It focuses on interdisciplinary and multidisciplinary research encompassing computer science mathematics statistics and econometrics *Conference Proceedings* ,2001 **MICAI ...** ,2004 Scientific and Technical Aerospace Reports ,1986 Lists citations with abstracts for aerospace related reports obtained from world wide sources and announces documents that have recently been entered into the NASA Scientific and Technical Information Database *Audio- and Video-based Biometric Person Authentication* ,2003 **Journal of Scientific and Industrial Research** ,2010-07 Encyclopedia of Library and Information Science Allen Kent,Harold Lancour,William Z.
