fields including anthropology biology and psychology Fuentes devises a myth busting toolkit to dismantle persistent fallacies about the validity of biological races the innateness of aggression and violence and the nature of monogamy sex and gender This revised and expanded edition provides up to date references data and analyses and addresses new topics including the popularity of home DNA testing kits and the lies behind incel culture the resurgence of racist nativist thinking and the internet s influence in promoting bad science and a broader understanding of the diversity of sex and gender *Research Handbook on European Anti-Discrimination Law* Colm O’Cinneide,Julie Ringelheim,Iyiola Solanke,2025-10-07 This Research Handbook provides a comprehensive overview of European anti discrimination law outlining developments in EU ECHR international and national law It engages in critical assessment of both legal doctrine and social impact analysing emerging trends in anti discrimination legislation It also explores the effectiveness of civil enforcement measures as well as exploring case law relating to environmental discrimination and economic inequalities **Color that Matters** Tony Sandset,2018-09-03 This book examines the ways in which mixed ethnic identities in Scandinavia are formed along both cultural and embodied lines arguing that while the official discourses in the region refer to a post racial or color blind era color still matters in the lives of people of mixed ethnic descent Drawing on research from people of mixed ethnic backgrounds the author offers insights into how color matters and is made to matter and into the ways in which terms such as ethnic and ethnicity remain very much indebted to their older racialized grammar Color that Matters moves beyond the conventional Anglo American focus of scholarship in this field showing that while similarities exist between the racial and ethnic discourses of the US and UK and those found in the Nordic region Scandinavia and Norway in particular manifests important differences in part owing to a tendency to view itself as exceptional or outside the colonial heritage of race and imperialism Presenting both a contextualization of racial discourses since World War II based on documentary analysis and new interview material with people of mixed ethnic backgrounds the book acts as a corrective to the blind spot within Scandinavian research on ethnic minorities offering a new reading of race for the Nordic region that engages with the idea that color has been emptied of legitimate cultural content **Statement on Race and Racial Prejudice** Unesco,1967 Statement adopted in Paris at meeting 18 26 September 1967 Includes list of experts at meeting **Group Rights and Discrimination in International Law** Nātān Lerner,2003 Race and Racial Prejudice **The Menorah Journal** ,1924 The American Race Problem: A Study of the Negro Edward Byron Reuter,1927 *Mixed Race Britain in The Twentieth Century* Chamion Caballero,Peter J. Aspinall,2018-05-07 This book explores the overlooked history of racial mixing in Britain during the course of the twentieth century a period in which there was considerable and influential public debate on the meanings and implications of intimately crossing racial boundaries Based on research that formed the foundations of the British television series Mixed Britannia the authors draw on a range of firsthand accounts and archival material to compare official accounts of racial mixing and mixedness with those told by mixed race people couples and families themselves Mixed
