Status Of Black Atlanta

Clarence Nathan Stone

Status Of Black Atlanta:

The Status of Black Atlanta ..., 1993 The Status of Black Atlanta 1993 Southern Center for Studies in Public Policy, Bob Holmes, 1993 Power in the City Marion Orr, Valerie C. Johnson, 2008 A collection of thirteen essays considered classics in the field of urban politics from leading scholar Clarence Stone with new essays by the editors and by Stone himself that contextualize the impact of his previous works and suggest new directions for researchers **IFA Newsletter**, 1994

The African Diaspora in the U.S. and Canada at the Dawn of the 21st Century John W. Frazier, Joe T. Darden, Norah Fox Henry, 2009 **Changing Urban Education** Clarence Nathan Stone, 1998 With critical issues like desegregation and funding facing our schools dissatisfaction with public education has reached a new high Teachers decry inadequate resources while critics claim educators are more concerned with job security than effective teaching Though urban education has reached crisis proportions contending players have difficulty agreeing on a common program of action This book tells why Changing Urban Education confronts the prevailing naivete in school reform by examining the factors that shape reinforce or undermine reform efforts Edited by one of the nation s leading urban scholars it examines forces for change and resistance in urban education and proposes that the barrier to reform can only be overcome by understanding how schools fit into the broader political contexts of their cities Much of the problem with our schools lies with the reluctance of educators to recognize the profoundly political character of public education The contributors show how urban political contexts vary widely with factors like racial composition the role of the teachers union and relations between cities and surrounding metropolitan areas Presenting case studies of original field research in Baltimore Chicago Houston and six other urban areas they consider how resistance to desegregation and the concentration of the poor in central urban areas affect education and they suggest how cities can build support for reform through the involvement of business and other community players By demonstrating the complex interrelationship between urban education and politics this book shows schools to be not just places for educating children but also major employers and large spenders of tax dollars It also introduces the concept of civic capacity the ability of educators and non educators to work together on common goals and suggests that this key issue must be addressed before education can be improved Changing Urban Education makes it clear to educators that the outcome of reform efforts depends heavily on their political context as it reminds political scientists that education is a major part of the urban mix While its prognosis is not entirely optimistic it sets forth important guidelines that cannot be ignored if our schools are to successfully prepare children for the future **The Politics of Black America** Milton D. Morris, 1975

Resources in Education, 1976 National Political Science Review, 2005 **Building Civic Capacity**, 2001 The authors of this volume argue that urban education is in urgent need of reform and that although there have been plenty of innovative and even promising attempts to improve conditions most have been doomed The reason for this they agree lies in the failure of our major cities to develop their civic capacity The ability to build and maintain a broad social and political

coalition across all sectors of the urban community in pursuit of a common goal

Highway Robbery Robert Doyle Bullard, Glenn Steve Johnson, Angel O. Torres, 2004 *Transportation Racism New Routes to Equity* dispels a major myth that conceals enduring divisions in American life While many people view the Civil Rights Act of 1964 as the end of government sponsored discrimination in the United States *Transportation Racism* confirms the obvious and ignored truth equality in transportation has been established in name only Case by case *Transportation Racism* shows how a half century after the Montgomery bus boycotts chronic inequality in public transportation is firmly and nationally entrenched Coast to coast equal access to healthy reliable and practical transportation eludes many people the majority of them poor people and people of color The effects of this injustice are broad and deep Access to transportation public and private determines the physical and social mobility necessary for admission to larger social economic and civic worlds For millions of people exclusion from transportation networks means drastically compromised life choices Their jeopardized health and limited economic opportunities are then compounded by the day to day indignities and feelings of frustration and isolation resulting from publicly funded segregation The authors illustrate the insidious contributions of transportation policy and urban planning to the establishment and enforcement of racial and economic inequality Written in recognition of activists like Ella Baker and Rosa Parks *Transportation Racism* lays the groundwork for future transit rights organizers *Transportation Racism* asserts that staying the current course will further polarize communities on the basis of class and color and the powerful evidence marshaled by the authors in this anthology demands that cities and states revisit their public transportation agendas Robert Bullard's *Dumping in Dixie* and *Confronting Environmental Racism* were seminal works in the establishment of Environmental Justice as a movement and an academic field

Black Police in America W. Marvin Dulaney, 1996 Traces the history of African Americans in policing from the appointment of the first free men of color as slave patrollers in 19th century New Orleans to the advent of black police chiefs in urban centres This title explains the impact of black police officers on race relations law enforcement and crime
