HOW CLASS WORKS
IN YOUNGSTOWN

Steelworker Alley

Dorceta E. Taylor

Steelworker Alley:

Steelworker Alley Robert Bruno,1999 The son of a Youngstown steelworker Bruno returned to his hometown seeking to understand the formation of his own working class consciousness and the place of labor in the larger capitalist society Drawing on interviews with dozens of former steelworkers and on research in local archives Bruno explores the culture of the community including such subjects as relations among coworkers class antagonism and attitudes toward authority He describes how because workers are often neighbors the workplace takes on a feeling of neighborhood He also demonstrates that to understand class consciousness one must look beyond the workplace in this instance from Youngstown s front porches to its bowling alleys and voting booths

Wives of Steel Karen Olson,2005 Wives of Steel is based on more than eighty formal interviews conducted over a fifteen year period with women and some men both white and black all of whom were part of Sparrows Point as workers spouses or longtime residents of the local communities Through the stories they tell we see how a male dominated industry has influenced personal family and social experiences over several generations We also see the distinct differences and surprising similarities among the lives of black and white women which often reflect the complicated relationships among black and white steelworkers in the plant

The Environment and the People in American Cities, 1600s-1900s Dorceta E. Taylor,2009-11-23 This wide ranging study of urban environmental history draws our attention to environmental challenges faced by American cities over the past four centuries showing how understandings of race class and gender shape discourse on the environment

As Goes Bethlehem Jill A. Schennum,2023-08-15 The steel industry played a central role in building post World War II economic success in the US and in defining the parameters of the post World War II social contract As these long term processes both preceded and contributed to the Great Recession a new capitalism one in which banks and the credit system took precedence over industrial production changed the lives of many American workers including steelworkers As Goes Bethlehem raises important questions about why workers and their unions were not able to successfully contest this attack on industrial labor instead settling for best navigating a long downward trajectory Through the experiences and reflections of steelworkers Jill A Schennum demonstrates the significance of work and particularly of industrial work in giving meaning to people s lives identities and sense of worth She uses workers narratives and voices to show the importance of work space time and social relations rejecting dominant interpretations of blue collar workers as alienated from their work but well paid and co opted by a middle class standard of living Schennum covers thirty five years of investment and disinvestment managerial initiatives transfer decisions layoffs and downsizings external transfers the eventual bankruptcy of the Bethlehem Steel Corporation and movement into retirement unemployment and new postindustrial jobs The very solidarities rights of citizenship and rule of law forged in the mill and built on by the union were constructed in part through exclusions based on race ethnicity gender and region These lines of fracture were mobilized to undermine working class strength in the postindustrial period Through the experiences of African American

Puerto Rican coal country and women workers in the steel mills this book explores these issues of fracture and solidarity

The Last Great Strike Ahmed White, 2016-01-04 In May 1937 seventy thousand workers walked off their jobs at four large steel companies known collectively as Little Steel The strikers sought to make the companies retreat from decades of antiunion repression abide by the newly enacted federal labor law and recognize their union For two months a grinding struggle unfolded punctuated by bloody clashes in which police company agents and National Guardsmen ruthlessly beat and shot unionists At least sixteen died and hundreds more were injured before the strike ended in failure The violence and brutality of the Little Steel Strike became legendary In many ways it was the last great strike in modern America Traditionally the Little Steel Strike has been understood as a modest setback for steel workers one that actually confirmed the potency of New Deal reforms and did little to impede the progress of the labor movement However The Last Great Strike tells a different story about the conflict and its significance for unions and labor rights More than any other strike it laid bare the contradictions of the industrial labor movement the resilience of corporate power and the limits of New Deal liberalism at a crucial time in American history

Steeltown U.S.A Sherry Lee Linkon, John Russo, 2002 Once the symbol of a robust steel industry and blue collar economy Youngstown Ohio and its famous Jeannette Blast Furnace have become key icons in the tragic tale of American deindustrialization Sherry Lee Linkon and John Russo examine the inevitable tension between those discordant visions which continue to exert great power over Steeltown's citizens as they struggle to redefine their lives When the Jenny was shut down in 1978 50 000 Youngstown workers lost their jobs cutting the heart out of the local economy Even as the community organized a nationally recognized effort to save the mills the city was rocked by economic devastation runaway crime and mob scandal problems that persist twenty five years later In the midst of these struggles the Jenny remained standing as a proud symbol of the community's glory days still a dominant force in the construction of both individual and collective identities in Youngstown Focusing on stories and images that both reflect and perpetuate how Youngstown understands itself as a community Sherry Lee Linkon and John Russo have forged a historical and cultural study of the relationship between community memory work and conflict

Steellabor ,1998 **Industrial and Labor Relations Review** ,1999 *Left History* ,2001 Industrial & Labor Relations Review ,1999 *Mitteilungsblatt des Instituts für Soziale Bewegungen* ,2000 *XCP* ,2001 A Nation Made of Steel Thomas Joseph Sabatini, 2006 **International Labor and Working Class History** ,2000 The Heat Jimmy Santiago Baca, Stacy James, 2001 A collection of short stories written by steelworkers under the guidance of award winning poet Jimmy Santiago Baca These voices of the working class describe what it's like to spend a lifetime in the shadow of America's steel mills The Heat offers a rare last glimpse inside the huge old abandoned plants that now litter the rust belt landscape

Radicalism in Decline Michael John Earle, 1990 **Industrial Relations** ,2000 **Current contents Arts and Humanities** ,2002 *Program Organization of American Historians. Meeting*, 1999 Beyond the Ruins Jefferson Cowie, Joseph Heathcott, 2003 The immediate impact of

deindustrialization the suffering inflicted upon workers their families and their communities has been widely reported by scholars and journalists In this important volume the authors seek to move discussion of America s industrial decline beyond the immediate ramifications of plant shutdowns by placing it into a broader social political and economic context Emphasizing a historical approach the authors explore the multiple meanings of one of the major transformations of the twentieth century The concept of deindustrialization entered the popular and scholarly lexicon in 1982 with the publication of *The Deindustrialization of America* by Barry Bluestone and Bennett Harrison *Beyond the Ruins* both builds upon and departs from the insights presented in that benchmark study In this volume the authors rethink the chronology memory geography culture and politics of industrial change in America Taken together these original essays argue that deindustrialization is not a story of a single emblematic place such as Flint or Youngstown or a specific time period such as the 1980s Nor is it limited to the abandoned factory buildings associated with heavy industry Rather deindustrialization is a complex process that is uneven in its causes timing and consequences The essays in this volume examine this process through a wide range of topics from worker narratives and media imagery to suburban politics environmental activism and commemoration
