Stolen Fire:

The Fourfold Path Magdalena Lovejoy, How Do We Become Free and Enter into the Mystery of Life The Fourfold Path takes us on a healing journey inspired by the philosopher Plato and his teachings on how to know yourself by transcending all limitations within the human space The model of transcendence leaves behind the metaphors we live by to pioneer humankind into the deepest and most powerful gnosis ever attained through the love of wisdom Through transcendence you can discover how to free yourself from the suffering that obstructs the complete vision of the soul You can heal from the unconscious processes and go beyond the limitations of the ego Once you have learned the Path you can attain enlightenment and become like God and attain the characteristics of divinity immortality and bliss Transcendence is basic to all human cultures who move through the limitless possibilities given to humankind to evolve using the wisdom of the mind and the wisdom of the heart This wisdom invites us to go deeper and move from self realization to knowledge of God Life itself inspires this change through the experiences of love birth death miracles blessings and family True enlightenment occurs when we process these life experiences as lessons on a soul journey that initiate a spiritual awakening It is as simple as arguing that there are two identities a true self and a false self Philosophy is the means to know the difference between the two while transcendence is the path that can lead humankind to know the truth When humankind comes to know their true selves they will be set free from suffering This is the ascent toward what Plato called The Good which many believe is also called God The Fourfold Path shows us how to leave behind the limitations of the human space to discover a sacred place in communication and communion with Spirit so you can become one with God and find true happiness

Firearm Abuse Steven Brill, 1977 Analysis of statistics from Atlanta Baltimore Chicago Detroit Houston New York Philadelphia San Francisco and Washington DC to study trends in firearm abuse as a first step toward developing policy alternatives This study represents the first sustained effort to examine from the police perspective the problem of firearm abuse by using police records Some intriguing information has been developed For example a significant finding emerges from an examination of samples of firearms confiscated in ten cities Data show the frequency with which higher priced well known brands of handguns appear in the samples of firearms believed to be involved in murder robbery assault and other felonies This evidence clearly indicates that the belief that so called Saturday night specials inexpensive handguns are used to commit the great majority of these felonies is misleading and counterproductive and can confuse the police administrator in confronting the problem of firearm abuse The variations in firearm confiscation rates among the ten cities studied in this report suggest that police policy and procedures in these cities should be studied further so that police efforts to confiscate illegally possessed firearms can be improved

Technology, Mythology and the Search for Meaning Douglas Francis, 2023-11-15 This book offers a big picture look at the evolution of Western thought on technology by focusing on seven periods when there was a paradigm shift in perspective A techno myth is used to identify shape and capture the beliefs

of each era Drawing from philosophy literature social sciences physical sciences mythology and cultural history the book brings to life the ideas of the great thinkers and the ancient myths What their message tells us is that we have failed to learn from the mistakes of the past We have allowed technology to take control of our lives and narrowed our thinking to a one dimensional materialistic perspective We have become prisoners in Max Weber s metaphoric iron cage But they also tell us how to free ourselves by humanizing technology so that humans are in control which is explored in depth in this book
